Subject: RE: Marshal Tahoe minor revision

Minor revision sorry.

The Marshal's Office is requesting to use SPLOST and asset forfeiture funds to purchase a 2026 Chevrolet Tahoe. The Marshal's office has increased its activity in dignitary protection and needs to have the space to perform such duties. The Tahoe's configuration allows for secure equipment storage and increased hauling capability while maintaining adequate workspace within the cabin for personnel.

The Tahoe provides advanced safety features, high visibility due to its elevated ride height, and structural integrity designed to perform in collision scenarios. These factors contribute to higher safety and overall operational readiness.

Based on operational requirements, safety considerations, and long-term value, approval of this procurement is respectfully recommended.

Subject: Marshal Tahoe

Good morning,

I am preparing the agenda for the Marshal Tahoe request. The agenda will show a vehicle will be replaced in your current fleet for the purchase but the need for the large SUV will need to be strong. When you get a chance can you send over a brief justification.
