

## Engineering Services Committee Meeting

Meeting Date: January 6, 2026

Resurfacing Various Roads

Bid 22-237

Supplement Paving

File Reference: 25-014(A)

---

<b>Department:</b>	Engineering & Environmental Services
<b>Presenter:</b>	Dr. Hameed Malik, Director
<b>Caption:</b>	Approve to Supplement Construction Contract with Reeves Construction Co. in the amount of \$486,327.50 for cover additional cost of Resurfacing Eisenhower Drive. AE/Bid 22-237
<b>Background:</b>	Currently, Reeves Construction (Reeves) is under contract (Bid: 22-237) with Augusta, GA for resurfacing various roads in Richmond County. The Augusta Commission awarded this contract on August 2, 2022 and work is substantially completed. Eisenhower Drive is one of collector servicing National Hills Neighborhood, RCBOE T. Harry Garrett School, and Augusta Recreational facility. In addition, it is primary connector for Augusta National Masters Tournament support workforce parking facilities to Primary Golf Course. Uninterrupted timely transportation of this workforce is critical for Masters Tournament operational support services. It is heavily used corridor during Master Tournament period by Augusta citizens & out of town visitors. Significant heavy traffic burden resulting in road deterioration and Augusta Engineering frequently repairing potholes at this corridor. Procuring new surfacing contract and getting this road paved prior to Masters 2026 is not feasible option. Given Reeves operation proximity to the location, performed work and workload, it is cost effective completing this work by supplementing it to Reeves resurfacing active contract (bid 22-237).
<b>Analysis:</b>	Completing Eisenhower Drive under Reeves active resurfacing contract is cost effective way to complete paving of this corridor in a timely manner to minimize potential traffic safety risk and support Master2026 traffic operation without potential road repair need arising during tournament week. Given Reeves operations proximity to the location and performed work at its approach, it is cost effective completing this work by supplementing it to Reeves resurfacing active contract. This cost was analyzed and determined to be reasonable and cost effective for the type of work being performed.
<b>Financial Impact:</b>	Funds - GDOT FY2025 Local Road Assistance Administration (LRA) Funds
<b>Alternatives:</b>	Not proposed

**Recommendation:** Approve to Supplement Construction Contract with Reeves Construction Co. in the amount of \$486,327.50 for cover additional cost of Resurfacing Eisenhower Drive. AE/Bid 22-237.

**Funds are available in the following accounts:** Engineering GDOT FY2025 LRA funds 330-041110-5414110 **\$486,327.50**
