Subject: RFP #25-167 Recommendation of Award

The Procurement Department recently advertised RFP #25-167 for Permitting, Licensing and Code Enforcement Regulatory Services System. Multiple qualified proposers responded to the RFP. A committee including representatives from the Planning & Development Department, the Fire Department, and Information Technology evaluated the proposals provided by each firm.

Following the evaluation process, the committee recommends award of RFP #25-167 to Tyler Technologies as the best responsive bidder. Please proceed to schedule a contract negotiation meeting. If at all possible, we prefer this meeting to be in-person.

Please let us know if you have any questions. As always, we appreciate Procurement's assistance with this RFP.
