<b>Caption:</b>	Approve Roadway Lighting Agreement with the Georgia Department of Transportation (GDOT) in Conjunction with SR 4/US 25BU @ Savannah River (13th Street Bridge over Savannah River Replacement Project), PI No. 0013927 Roadway Lighting Project Also authorize Augusta Mayor to execute its associated documents (electronic and hard copy). /AE
<b>Background:</b>	The Bridge on SR 4 (US 25 BU) over Savannah River was built in 1939 and widened in 1991. This bridge was designed using a H-20 vehicle, which is below current design standards. A structural analysis of this bridge shows a lower than expected load carrying capacity. The overall condition of this bridge would be classified as fair. Due to the age of the structure, the structural capacity being below current standards, replacement of this bridge is recommended. Trail & pedestrian connectivity, and aesthetic items were requested to be included in this project by local project stakeholders during targeted stakeholder engagement. Based on the local stakeholder's request, the design team has included a provision of connectivity between existing trails within the project. The bridge existing lighting will be upgraded to current standard. Project is managed, designed, and constructed by the GDOT.
<b>Analysis:</b>	Agreement would allow the streetlight installation as part of the project to move forward. Agreement would allow inclusion of street lighting improvements in the project construction plans and allows GDOT to construct these improvements along with bridge reconstruction & associated other improvements. In addition, street lighting improvements will enhance safety and aesthetic of this corridor.
<b>Financial Impact:</b>	None anticipated for construction
<b>Alternatives:</b>	Not proposed
<b>Recommendation:</b>	Approve Roadway Lighting Agreement with the Georgia Department of Transportation (GDOT) in Conjunction with SR 4/US 25BU @ Savannah
