

Engineering Services Committee

Meeting Date: September 9, 2025

AUD Sewer and Water Main Extensions – AEDA Development RFQ 24-132

Department:	Utilities
Presenter:	Wes Byne, P.E.
Caption:	Motion to approve a proposal to enter an Engineering Services Contract with Johnson, Laschober, & Associates, PC, to provide engineering services including permitting, design, bidding, and construction administration for the extension of water and sewer infrastructure to support a proposed development project in the amount of \$50,500.00. (RFQ 24-132)
Background:	The Augusta Utilities Department is working in partnership with state and local entities to support future development that will provide new housing opportunities and strengthen Augusta's workforce capacity. Reliable utility access is an essential foundation for successful community growth. This contract will provide the necessary professional engineering services to ensure that water and sewer infrastructure can be extended to the project area. JLA is a prequalified engineering firm (RFQ 254-132)
Analysis:	Approval of this contract will facilitate the extension of critical utilities that will enable new housing options and support broader community development goals. Expanding infrastructure in this area is consistent with Augusta's long-term strategy to address growth and housing needs.
Financial Impact:	The proposal from Johnson, Laschober & Associates, PC has been reviewed and determined to be reasonable. Funding in the amount of \$50,500 is available from these accounts: G/L 514043490-5212999 and J/L 80599999-5212999.
Alternatives:	No alternatives are recommended.
Recommendation:	Recommend approval of the contract with Johnson, Laschober & Associates, PC for \$50,500.00.
Funds are available in the following accounts:	Funds are available in these accounts: G/L 514043490-5212999 and J/L 80599999-5212999.
