

Engineering Services Committee

Meeting Date: 9/30/2025

Approve proposals for GMC Engineering for water and wastewater permitting

Department:	Utilities
Presenter:	Wes Byne
Caption:	Approve proposals for GMC Engineering for water and wastewater permitting. GMC is a prequalified under RFQ 24-132.
Background:	AUD has requested engineering support for the analysis of a transfer pump at the JB Messerly WWTP and the renewal of our groundwater permits. GMC provided proposals to assist in those activities and AUD found them to be reasonable and appropriate for the scope requested.
Analysis:	These services are needed to renew our permits.
Financial Impact:	\$75,000 to cover costs and contingencies associated with these activities.
Alternatives:	None recommended
Recommendation:	Approve proposals for engineering services
Funds are available in the following accounts:	516043490-5212115/82400050-5212115
