Subject: RE: [EXTERNAL] Re: Daniel Field Airport requesting to move Band 2 TIA funds to 2026

I am glad this project is progressing. Next step is getting IGA executed. Once GDOT send it, I will get routed through legal for Mayor execution. Once City execute it then we will send it back to GDOT for GDOT execution. Probably it will be by end of April to complete this step.

Once IGA is executed GDOT will release NTP for this project.

Thanks

Dr. Malik,

On behalf of the entire Daniel Field General Aviation Commission (DNL GAC) and the airport management team, thank you for advocating for Daniel Field Airport by moving the Band 2 project up to this year. We appreciate your promptness in submitting the application to TIA for the Band 2 Hangar Construction Project.

As you are aware, we received written confirmation from TIA that the application you submitted has been approved. What do you need from me to get the contract between TIA and Richmond County executed?

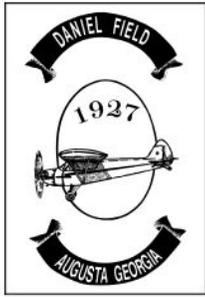

Becky Shealy

Hi Becky - the TIA Office is in agreement with starting the Hangar Development project in 2026. This a separate project number so we will need a Local Delivery Application to get started. I have attached the previous application for reference.

CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Hey George,

Per our recent conversations, I am requesting confirmation in writing that TIA is in agreement to move the Daniel Field Airport Band 2 TIA funds to 2026. Our Band 2 funding is 2.6 million for commercial hangars.

At today's aviation commission meeting, The Daniel Field General Aviation Commission voted to approve moving forward with the commercial hangar project. The DNL GAC is aware that TIA is encouraging all projects to be let as soon as possible. That being said, what do you need from me?

Our Band 1 IGA Contract # is IGTIA2301552

Our Band 1 PI # is 0017623

The attached is page 1 of our Band 1 contract. I added it just for easy reference for you.

Would it be possible to get a letter on TIA letterhead stating that the department is approving moving the Band 2 funding up to 2026?

This letter is to serve as an agenda item for the Augusta Commission to approve the timeline move as well as approving the project itself. The commercial hangar project includes design, site planning, construction administration, and construction of commercial hangars.

Thank you, George, for all of your help with this.

Becky Shealy
