2. Please provide a brief summary of aviation and relevant education experiences and/or related interests.

My interest in aviation started in November of 2021 with a discovery flight with Sherwin Jen. I began flight training the next week! I have completed my PPL and will begin working on my IFR beginning in 2023. I have a partnership with Kevin Pope in a Piper Cherokee 6 that is station at our field. I have enjoyed the process of learning to fly, but during this time have learned just how important our airport is to our community and local businesses. As a local business owner, I know just how important it is to have a warm, inviting place to welcome guest, and I feel our airport does an incredible job on achieving this. I would be honored to be a part of helping our airport continue to be a welcoming environment and to continue to grow with our partnership with the local community and government bodies.

3. Why do you want to join the Airport Advisory Committee?

I feel that my experience as a business owner and now a local pilot would bring a community aspect to an already thriving committee. I also feel that my time as a local business owner would help the committee by bringing an awareness of how our airport is seen by our business and community

4. What do you bring to help the Airport Advisory Committee?

I believe my experiences on other committees would be beneficial to the airport committee. I have been a committee member on the Houston County Career Academy, First United Methodist Church Staff-Parish Relations, Court Appointed Special Advocates for Baldwin and surrounding counties, and most recently, member of the John Milledge Academy Board of Trustees. I think this experience, along with my business experience, would bring a diverse and new voice to the committee.

5. What are two things you believe the Airport Advisory Committee should address?

I would like the committee to begin helping our local community understand how much our airport helps bring people and thus more business to our local community. I would also like to see more outreach to our community, so people have a better understanding of just how great our airport is and what exactly the benefit to having a regional airport is for our community.

6. What are two things you consider the best aspects of the Baldwin County Regional Airport?

I think the first thing would be our friendly staff and welcome nature at our airport. Everyone who visits leaves feeling welcomed and wanted at our airport. I believe this encourages repeat visits, which benefits the local businesses that these visitors frequent. I also consider our airport to be one of the nicest in terms of view, cleanliness, and accessibility. I believe this also encourages return visitors and spreads the word about how incredible our airport is for pilots and visitors alike.

7. Please share any other information you would like the selection committee and/or the county commissioners to know.

I believe that Baldwin County has an incredible asset in the Baldwin County Regional Airport, one that is welcoming and encouraging of both business and general aviation alike. I would be honored to be a part of a committee that is helping grow and steer the future of our local airport. Thank you for your consideration to be a part of this committee.
