

## **Consent Item**

**RE:** 2025 Pointe Fitness Equipment Purchase

**Department/Program:** Parks & Recreation/Parks

**Explanation:**

The 2025 budget includes \$42,000 to replace four Adaptive Motion Trainers (AMT) open stride crosstrainers. After careful consideration staff found it necessary to only purchase two AMTs in order to purchase a configurable functional training solution (cable crossover machine, lat pull down and seated row) to replace two current pieces of equipment that are 20 and 25 years old. Parts for those machines are no longer available from the manufacturer. Any replacement parts would need to be fabricated or searched on the secondary market. Quotes from local vendors were provided through the Sourcewell cooperative purchasing program and are under budget and include delivery and installation.

The existing cross trainer will be sold for \$400 and the two AMTs will be traded in for a credit of \$400 each.

**Recommendation:** Approve purchase for a Life Fitness functional trainer for \$22,264.23 from Advance Exercise and two AMTs for \$18,484 (includes credit for trade in of \$800 for the two existing AMTs) from Push Pedal Pull totaling \$40,748.23.
