

Staff Report

Subject: 2 Ton Truck Replacement

Department/Program: Public Works/Pavement

Recommendation: Staff recommends the purchase a 2022 M2106 Freightliner from Truck Centers in Troy, Illinois for \$ 199,852.00

Explanation: For 2022, we have the following items budgeted:

\$180,000- 2 Ton Truck replacement

\$20,000-Plows and Equipment

Total Budget is \$200,000.

We are not able to purchase through the Missouri State Bid Program due to the availability of Cab and Chassis. As you know microchips and parts have been delayed for some time; 2023 is the earliest we could have a truck built using this program.

We were able to locate an already built cab and chassis at Truck Centers in Troy, IL that someone had backed out on completing.

Subject: RE: NT3515 City of Ballwin

Jim,

Disregard this price as I forgot to include the tires. Wheels are included with axle price.

Sorry for confusion...

Matt Pace
