- D. Discussion on the process in place for parades and discuss additional safety rules and cleanup process. Councilmember Palmer**

There was much discussion on the safety and security for the parades. There were concerns with people running out into the street and grabbing things from the floats. Also, the lack of the motorcycle police keeping people back off the streets and how it is creating a break in between floats causing a slow down of the overall parade. There was much concern in the 1st block of Main because of the parking and people in between the cars. There was some discussion about getting some type of barriers or fencing for that block for parades. There was also some discussion on the entry area for the parade and having it more controlled. There was no action on this item but a few council members along with the City Administrator are going to come back to Council at a later date with some suggestions.
