

STAFF REPORT

MEETING DATE: July 11, 2023

TITLE:

Receive presentation from Stantec Consulting on the proposed Parks and Recreation Masterplan.

AGENDA ITEM SUBMITTED BY:

Terry Moore, Recreation Manager

BACKGROUND/HISTORY:

City staff has been working with Stantec Consulting and Edge of Your Seat Consulting since January to develop a 10 year Parks and Recreation Master Plan. The plan will encompass a comprehensive analysis of the City's parks and recreation assets, an extensive community needs assessment, provide recommendations to development, recreation, policies, land acquisition, and prioritize needs based on the community's short and long-term parks and recreation needs.

Community engagement was the first phase of the process. Based on the community meetings, interviews and surveys, staff interviews and reviews, statistics and research, Stantec presented a first draft for review. This document was reviewed by both volunteers, staff and city council for additional comments and revisions.

At this workshop, Stantec will present the document in a short presentation. Council will have the opportunity to ask questions and share any concerns or need for additional information on the plan. This is so these adjustments can be made before bringing the plan back to council for adoption.

RECOMMENDATION:

For council to make additional comments, adjustments and suggestions before the document is finalized and presented to council for adoption.
