SERVES JUSTICE.
SAVES TIME.

OVERVIEW

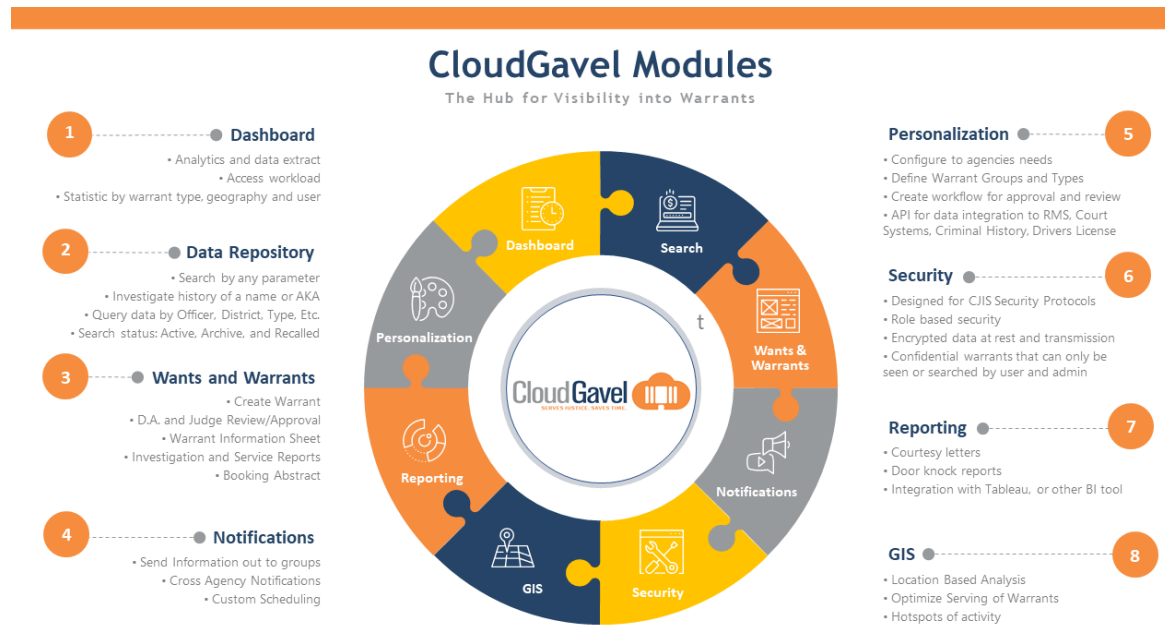

CloudGavel is the global leader in electronic warrants. We are committed to national leadership in training, best practices, awareness and product innovation. Our single focus is to help law enforcement professionals, judges, courts and clerks of court have the best available technology, training and processes available for warrant creation, servicing and archiving.

CloudGavel SOLUTION

CloudGavel is pleased to submit this proposal for services to support the agencies within Bastrop County with our cloud based electronic warrants solution. CloudGavel brings speed and efficiency to the Warrant process. The CloudGavel solution is all inclusive and delivers these impressive features:

- **Latest Technology** - Old paper-based systems are being replaced by electronic systems that save time increasing law enforcement effectiveness while cutting costs out of the process. Any internet capable device can prepare and submit warrants to the judge, from anywhere at any time.
- **Common warrant language and forms** – within an agency, within a judicial district, and within a state....consistent and specific forms, workflow and process improves productivity for everybody
- **Economical and Flexible** – solution supports unlimited users in your agency. Simple to set up, administer and use...no hardware or software to install or support. Pricing is population based so the cost scales from smaller to larger agencies. A single agency can participate along with their judge (s), or all agencies in a judicial district or county can participate together as a multi-jurisdiction solution..... regional solutions can easily grow out over time.
- **Tailored for your State and Agency** – CloudGavel at no cost to your agency sets up your unique state forms (arrest, subpoena, etc.) and your statutes, as well as your judges/districts and other location specific data to speed data entry and warrant creation
- **Custom Integrations** – where desired, API's allow integration of CloudGavel with agency RMS systems eliminating duplicate data in many cases and enabling effective information sharing.
- **Enhanced Security** – CJIS compliant hosting environment with highest security protocols hosted on Amazon's government AWS cloud hosting environment – the best quality in the world.

Industry Leading Warrants Process

CloudGavel simplifies and expedites the warrant approval and issuance process by allowing public safety officers to use any device with secure internet access to log on to our web application and generate a warrant. After the electronic warrant is automatically populated, it is then electronically sent to a judge for review and approval.

Fast Justice

CloudGavel enables law enforcement officers to act quickly and to ensure the safety of those officers as well as the general public. Law enforcement officers are able to take action as soon as they have probable cause, thereby reducing the possibility that a suspect will be tipped off and flee. If required, a secure video conferencing link between the officer and judge can be utilized. A judge is able to review the warrant and respond from anywhere, eliminating the need to physically be in an office.

Value

CloudGavel saves countless hours, and even days, of lost time over the course of a year. By maximizing the efficient deployment of police resources, agencies reduce unplanned overtime used to process warrants and file paperwork.

SERVES JUSTICE.
SAVES TIME.

Proposal for Bastrop County, Texas

We are providing an unlimited-use license for the law enforcement agencies' detective units, courts, and district attorney users for our CloudGavel eWarrants and eService Solutions.

CloudGavel Pricing Bastrop County, Texas					
DESCRIPTION	RECURRING				
	Year 1	Year 2	Year 3	Year 4	Year 5
eWarrants					
Annual SaaS Fee	\$15,000.00	\$15,750.00	\$16,537.50	\$17,364.38	\$18,232.59
• Technical Support	Included				
• Support & Maintenance	Included				
Implementation / Configuration	Included				
eWarrants Cost Total	\$15,000.00	\$15,750.00	\$16,537.50	\$17,364.38	\$18,232.59
eService					
Annual SaaS Fee	\$15,000.00	\$15,750.00	\$16,537.50	\$17,364.38	\$18,232.59
• Technical Support	Included				
• Support & Maintenance	Included				
Implementation / Configuration	\$15,000.00				
eService Cost Total	\$30,000.00	\$15,750.00	\$16,537.50	\$17,364.38	\$18,232.59
Annual Total	\$45,000.00	\$31,500.00	\$33,075.00	\$34,728.75	\$36,465.19

**The cost listed above is a collective cost for the entire county. The County can divide this cost amongst all participating agencies within the county whereby each agency would be invoiced for their agreed portion.

**The listed cost does not include any integrations with any third-party solutions. This cost will need to be negotiated in conjunction with those vendors.

Training and Support

All user training and support is included in the proposed cost. CloudGavel supports the electronic Warrants solution with 24 by 7 telephone and email support – support continues for as long as client remains a supported customer. Telephone/email support is backed by a growing library of on-line video tutorials and self-paced learning.

Please let us know if there are any questions regarding this proposal or if there are any requested changes to be considered.

Sincerely,

Casey D. Roussel
President/CCO
