

Bastrop County Courthouse

Work of this project is described as the Bastrop County Courthouse, Tower Repairs. This project has received funding from the *National Park Service Emergency Supplemental Historic Preservation Fund Grant – Hurricane Harvey Disaster Assistance*. The National Park Service (NPS) funding is coordinated through the Texas Historical Commission (THC) and was provided to aid owners whose property sustained damage following Hurricane Harvey’s landfall on Texas in August 2017. Work generally includes:

The THC and NPS utilize *the Secretary of the Interior’s Standards for the Treatment of Historic Properties (SOI Standards)* to evaluate proposed work and ensure that grant funds are used appropriately.

Architexas has proposed a scope of work that is guided by the SOI Standards. SOI Standards considerations include:

1. Character defining features will remain.
2. Deteriorated architectural features will be repaired with in-kind materials.
3. Cleaning methods will include proven products that utilize the gentlest means necessary.
