

# STAFF REPORT

**MEETING DATE:** July 6, 2023

**AGENDA ITEM:** 5C

**TITLE:**

Discussion on National Parks and Recreation Month

**AGENDA ITEM SUBMITTED BY:**

Terry Moore, Bastrop Recreation

**BACKGROUND/HISTORY:**

In July is National Parks and Recreation Month and a chance to showcase the ways our facilities and programs build a strong, vibrant and resilient community all year long.

The City of Bastrop Park and recreation facilities and programs provide space, and services that are essential to the community's vitality. They also serve as key factors in advancing health equity, improving individual and community-level health outcomes, and enhancing quality of life. Through partnership with area civic and other non-profit organizations, we can enhance opportunities to offer engaging, inclusive and overall healthy programs.

Staff has put assembled a list of 15 programs to highlight during the month of July. These programs are all FREE to the public. They include skateboarding, music, hike, birds, water and more. We are inviting the public to join us and celebrate the great parks and programs available to the community.

Through Parks and Recreational programing is "Where Community Grows".

**FISCAL IMPACT:**

\$2000 in total cost for all city planned and organized recreation programs for Park and Recreation Month

**RECOMMENDATION:**

Support and participate by assisting in volunteering, promoting, and attending activities.
