

STAFF REPORT

MEETING DATE: July 28, 2022

TITLE:

Discussion and possible direction of code requirements for window openings related to internal coverings and signs.

SUBMITTED BY:

Debbie Moore, P&Z Chair

BACKGROUND/HISTORY:

Within the Bastrop Building Block (B³) Code, Chapter 8 Article 8.3 i) Window Signs describes in the purpose

“Window Signs shall not interfere with the primary function of windows, that is to enable passersby and public safety personnel to see through windows into Premises and view product displays.”

While the B³ Code does specify that window glazing must be transparent, the Code is silent on requirements for blinds or other coverings on the interior of the window that obscure the window.
