

STAFF REPORT

MEETING DATE: January 4, 2024

AGENDA ITEM: 5G

TITLE:

Creation of permanent Pickleball Courts in a City Park

AGENDA ITEM SUBMITTED BY:

Terry Moore, Recreation Manager

BACKGROUND/HISTORY:

Pickleball is the fastest growing sport in the country. Several “pay for play” locations have been built in the community. In the past couple years the city has provided an opportunity to play the game on courts originally built for tennis. Our parks crew has drawn the boundary lines so players can bring temporary nets to play pickleball. Most recently, there was a box installed at the Fisherman’s Park location with the intent to store temporary nets to assist the public.

There has been a proposal to take one of the tennis courts and convert it to permanent pickleball courts.

Location to be established.

FISCAL IMPACT:

TBD

RECOMMENDATION:

Staff is asking the Advisory Board for:

*Is there a need to create a permanent pickleball court in one of our city parks?

*If so, which park would the board recommend?
