

ITEM REPORT UTILITIES COMMISSION

Agenda Date: 12/4/2024
Agenda Section: Information Only

Department Origination: Public Works

Agenda Item: 2025 Design Road & TH 371 Stormwater Improvements Project Monthly Update

Approval Required: No Action Required

BACKGROUND

Widseth has been working with MNDOT to get the required items submitted for the project and update the project schedule. The only remaining items to complete are the easement documents and discussions with the property owners. Widseth is pushing their subconsultant to get the easement documents completed. Widseth has received comments back on the Project Memorandum and is working through those comments and will submit the Project Memorandum again once the comments have been addressed.

An updated resolution is also being brought forward to order the preparation of the feasibility report. This report was originally ordered by City Council as part of the 2022 Baxter Street Improvements Project on October 19, 2021. Since this time, Design Road was pulled from the 2022 project. This allowed for additional time to coordinate with MNDOT on improvements related to the 210/371 Interchange Project. Since the project scope significantly changed, Staff felt it was appropriate to bring a new RCA and Resolution forward ordering the Preparation of the Report.
