**BACKGROUND**

The precursor letter to the formal petition for connection to the County ditch system has been sent to the County along with a copy of the approved study. City staff have had preliminary discussion with County staff regarding the connection.

It is likely the County and property owners in the downstream of the connection including properties along Red Sand Lake will want some assurances the connection will not have a negative effect on their property. Therefore, City staff have requested a proposal from Widseth to complete a hydrologic and hydraulic analysis of the connection. The Widseth proposal is included in on the agenda and in the packet for approval.
