

REQUEST FOR ACTION
PARKS AND TRAILS COMMISSION

Agenda Date: 2/24/2025
Agenda Section: Other Business

Department Origination: Community Development

Agenda Item: Approve Playset Replacement at Southdale Park

Approval Required: Simple Majority Vote

BACKGROUND

The City of Baxter is requesting the Parks and Trails Commission review and recommend a playset replacement at Southdale Park. Due to the age and condition of playsets in Baxter, the City has annually budgeted for playset replacements. The City completed a replacement of the Oscar Kristofferson park playset in 2022 and a replacement of Loren Thompson park playset in 2024. The City is now requesting a playset replacement at Southdale Park. Attached are two playset options for the Commissions review. The playset options are designed to be comparable in cost so that the Commission can focus on which playset is best suited for Southdale Park. Each playset option will be presented in detail at the February 21, 2025, meeting.

COMMISSION ACTION REQUESTED

Staff is requesting that the Parks and Trails Commission recommend approval of a playground design for Southdale Park.
