

ITEM REPORT CITY COUNCIL

Agenda Date: 2/17/2026
Agenda Section: Consent Agenda

Department Origination: Public Works

Agenda Item: Accept Quality Flow Systems, Inc. Proposal for Lift Station 27 Control Panel, Pumps, Hatches and Accessories in the amount of \$58,650.00 related to the 2026 Clearwater Road, North Lynndale Area, & Brentwood Circle Street & Utility Improvements Project, Municipal Project No. 4068

Approval Required: Simple Majority Vote

BACKGROUND

To assure compatibility of control panel, radio telemetry equipment, pumps, impellor type, motor phase/voltage, and pump base elbows, the City works with Quality Flow Systems, Inc. to provide a “standardized lift station package”. This minimizes the type and amount of spare parts the City maintains to assure timely response to lift station issues and cost-effective maintenance of the sanitary sewer and storm sewer lift stations operated by the City.

To continue this practice of obtaining compatible equipment, a quote was solicited for control panel, pumps, pipe rails, floats, access hatch covers, and other associated equipment for the lift stations that are proposed to be constructed for Lift Station 27. As this equipment needs to be similar to equipment in use at other lift stations within the City, SEH solicited a quote from one supplier, Quality Flow Systems, Inc. The quote is included with the packet. Quality Flow is a supplier with a long-standing relationship with the City, and the equipment specified for this project will be similar in nature to other equipment in use within the City, and will also be compatible with the City’s lift stations and radio telemetry system. This contract is for equipment supplied for Lift Station 27. Equipment is intended to be delivered to the City’s Public Works facility within three months of finalizing the order with the supplier.

FINANCIAL IMPLICATIONS

This would be a project cost covered in the previously approved feasibility report. The preliminary project budget presented with the feasibility report included a line item for a lift station with a budget amount of \$200,000. The equipment supplied under this contract is accounted for in the lift station line item.

STAFF RECOMMENDATIONS

The Utilities Commission and staff recommends accepting the Quality Flow Systems, Inc. Proposal for Lift Station 27 Control Panel, Pumps, Hatches and Accessories in the amount of \$58,650.00 related to the 2026 Clearwater Road, North Lynndale Area, & Brentwood Circle Street & Utility Improvements Project, Municipal Project No. 4068.

COUNCIL ACTION REQUESTED

MOTION to accept the Quality Flow Systems, Inc. Proposal for Lift Station 27 Control Panel, Pumps, Hatches and Accessories in the amount of \$58,650.00 related to the 2026 Clearwater Road, North Lynndale Area, & Brentwood Circle Street & Utility Improvements Project, Municipal Project No. 4068.
