

Parks & Trails Snow Removal Priorities

All full-time parks employees will be called in for a snow event in accordance with the City's snow removal policies. Two Parks employees will assist the Streets Division with snow removal on cul-de-sacs and the remaining three employees will remove snow on this list. The goal is to be efficient in snow removal and have all employees start and leave at the same time. Priorities often change and are dependent on many factors such as: snowfall; type of snow; reporting employees; etc. The following is a list of priorities to guide employees when they report to work.

Monday-Thursday

Cul-de-sacs

City Hall

Safe Routes

Priority Trails

Rinks

Other Trails

Friday-Sunday, School Off

Cul-de-sacs

City Hall

Rinks

Priority Trails

Safe Routes

Other Trails

Employees must finish the first four tasks before leaving.

Before Rinks are running or if not a priority: One employee will report to City Hall for snow removal. One employee will assist the other at City Hall in snow removal and ice control on the sidewalks, snow removal on building emergency exits and pathways, and moving vehicles if necessary. That employee will continue on to Oscar Kristofferson Park trails. One employee will plow Knollwood Drive and Foley Road ahead of the street plow to make final trail plowing easier. They will continue with safe route trails such as County Road 48, Jasperwood Drive, and Mapleton Road. Once done with initial tasks, employees shall contact each other to work on the rest the priorities above.
