

STAFF REPORT CITY COUNCIL

Agenda Date: 10/20/2026
Agenda Section: Consent Agenda

Department Origination: Public Works

Agenda Item: Accept the Foley Road and Isle Drive ICE Report

Approval Required: Simple Majority Vote

BACKGROUND

This Intersection Control Evaluation (ICE) Study was completed as part of the ongoing design project for the intersection of Foley Road and Isle Drive, which will be the new access from the commercial area to TH 210 upon completion of the TH 210/TH 371 Interchange Construction.

As part of the design process, MnDOT State Aid requested an ICE report for the intersection of Foley Road and Isle Drive to study the appropriate traffic control for the intersection when it is reconstructed and the north leg/connection to TH 210 is added. ICE Study tasks included traffic counts, traffic forecasting, safety analysis, traffic operations analysis, and railroad crossing considerations. The ICE report has been completed and was reviewed by City Staff. The report is currently being reviewed for approval by MnDOT and MnDOT State Aid.

The findings and recommendations of the ICE report were presented to the Utilities Commission and is will be presented to City Council at the Work Session.

FINANCIAL IMPLICATIONS

The Ice Report was included in the SEH contract that was previously approved by council.

STAFF RECOMMENDATIONS

The Utilities Commission and staff recommends accepting the Foley Road and Isle Drive ICE Report

COUNCIL ACTION REQUESTED

MOTION to accept the Foley Road and Isle Drive ICE Report.
