The library would like to request permission to extend an invitation to local artists to submit proposals for a mural project on the South side of the library wall overlooking the lot.

We are suggesting 2 options for the placement (see diagrams 1 & 2) of the mural or a tile mosaic. (see diagrams 3 & 4).

We see the mural as a community based project with students of all ages involved under the directorship of someone who has experience in this type of program.

We understand that the final decision will be made by a majority.

MURAL
Diagram 1

MURAL
Diagram 2

We would like visitors to know this building is a library. These are examples of what a mural or tile mosaic might look like.
