Findings:

1. The presence of unmaintained vacant residential and commercial structures creates a negative impression and has been shown to have an adverse economic impact on neighboring properties and businesses by depressing property values;
2. It is the property owner's responsibility to maintain a vacant structure to minimize the appearance of neglect and to secure the vacant structure from unauthorized entry, and such responsibility should not be a burden placed upon the entire community;
3. Trespassers find vacant structures to be attractive places to conduct criminal activities, and unauthorized access can lead to vandalism and even fires that put the structure and surrounding area at risk;
4. Neglected vacant and unsecured residential and commercial structures can become an attractive but dangerous play area for children and can harbor wild animals, pests, and vermin;
5. Vacant structures that have deteriorated or been neglected are a threat to public safety, health, and welfare of the community.
6. The City of Bayard has an interest in identifying and registering property owners of neglected and unsecured vacant residential and commercial structures located within the corporate limits of the City of Bayard; and
7. To provide for the safety, preserve the health, promote the prosperity and improve the morals, order, comfort and convenience of the City of Bayard and its inhabitants, it is necessary to establish a process whereby the City can identify neglected vacant structures and impose a fee upon the owners thereof in order to monitor compliance with applicable laws.
