### PROJECT SUMMARY

#### 9. Provide Brief Project Description/Overview:

This City of Bay St. Louis is proposing a project that addresses the settlement of the harbor sidewalks, which has led to the sidewalk to become uneven. Due to the unevenness, this has resulted in safety risks and becoming non ADA compliant. The project includes demolition and excavation of the existing sidewalk and asphalt, followed by the installation of geofabric, new backfill, sand, and reconstruction of the sidewalk. These measures are intended to create a stable hurricane resistant infrastructure, and resolves an emergency situation by removing obstructions and hazards to pedestrian acces to the harbor.

#### 10. LIST Project Goals/Objectives:

- Hurricane Mitigation and Resilience
- Safe Public Access
