

RE: Tree Removal Application – 11650 Bayou View Drive - Kevin Bardy

On July 9, 2026, Kevin Bardy submitted a tree removal application seeking authorization to remove a protected live oak tree located at 11650 Bayou View Drive.

After reviewing the application, site conditions, and protected trees, the Building Department denied the tree removal request on July 15, 2026.

The parcel 11650 Bayou View Drive is 120 feet in width by 190 feet in depth. These dimensions provide adequate buildable area to accommodate the proposed dwelling while fully complying with required front-yard, rear-yard, and side-yard setbacks. Relocation of the proposed structure within the setbacks can be achieved without the need for any variance. Removing the protected live oak tree is not necessary to allow reasonable use and development of the property.

Should you require additional information or documentation regarding this matter, please contact the Building Department.
