Article XIII
1305.3 VARIANCES

To recommend such variances from the terms of this Ordinance as will not be contrary to the public interest where, owing to special conditions, literal enforcement of the provisions of this Ordinance will in an individual case result in unnecessary hardship, so that the spirit of the Ordinance shall be observed, public safety and welfare secured, and substantial justice be done. Such variance may be granted in such case of unnecessary hardship upon a finding by the City Council that all of the following conditions exist:

- A. There are extraordinary and exceptional conditions which pertain to the particular piece of property in question because of its size, shape, or topography that are not applicable to other lands or structures in the same district.
- B. The literal interpretation of the provisions of this Ordinance would deprive the applicant of rights commonly enjoyed by other residents of the district in which the property is located.
- C. Granting the variance requested will not confer upon the applicant any special privileges that are denied to other residents of the district in which the property is located.
- D. The requested variance will be in harmony with the purpose and intent of this Ordinance and will not be injurious to the neighborhood or to the general welfare.
- E. The special circumstances are not the result of the actions of the applicant.
- F. The existence of a nonconforming use of neighboring land, buildings, or structures in the same district or of permitted or nonconforming uses in other districts shall not constitute a reason for the requested variance.
- G. The variance requested is the minimum variance that will make possible the legal use of the land, building, or structure.
- H. The variance is not a request to permit a use of land, building, or structure which is not permitted by right or by special exception in the district involved.

I. Notice of public hearing shall be given as in Section 1305.2(A).

J. The variance can't be transferred to a subsequent owner of the property, if the variance is unused.

K. The grant of a variance shall expire if the variance has not been activated within six (6) months of final approval. "Activation" shall mean obtaining a building permit for the required or necessary construction. In addition, the activation shall not be effective unless the construction is completed within six (6) months of obtaining the building permit. On good cause shown, the Bay St. Louis City Council may extend the above stated time limits for up to a maximum of six (6) months.
