

Staff Report

Meeting Date: August 20, 2024
Meeting Type: City Council

To: City Council
From: Administration - Harbor
Item Title: Motion to approve purchase of Point of Sale equipment and software from SPATCO Energy Solutions for \$17,450 for the Harbor using Tidelands Grant Funds.

Background: This POS system is made to work with the company that provided our gas pumps. They work together hand and hand and are serviced by the same company. It's not just the POS being replaced. They're updating the digital control box, wiring and miscellaneous electronic pieces. This works directly with the fuel dock gas system for allowing purchases.

Recommendation: APPROVE
