

Staff Report

TO: City Council
FROM: Doug Story, Interim Community Services Director
DATE: April 19, 2022
SUBJECT: Approve the Purchase of a Superior Playground Structure and Shade Sail Structure in the Amount Not to Exceed \$42,100.35 from Kraftsman Commercial Playground and Water Parks, Inc.

Background and Analysis:

On January 18, 2022, City Council provided direction on the Rangel Park Improvement Project. The direction to move forward with improvements in the park included upgrades to the ballfield, enhanced LED lighting, a basketball court, various park amenities and a playground.

City staff began to contact various playground manufacturers and distributors and quickly learned that many companies were reporting that the delivery timeframe was significantly delayed. None of the companies that were contacted could deliver a playground structure in less than twenty to twenty-four weeks. After speaking with Kraftman Commercial Playground and Water Parks, Inc. an option presented itself to have an available unit shipped within 5 business days of received deposit. This is a quick ship option that is available and in stock at the manufacturer.

The amount of this playground structure and shade sail structure is \$42,100.35.

Fiscal Impact:

The total costs for purchasing the playground and shade sail is \$42,100.35 and will be funded from account CIP No. P-11.

Recommended Action:

Approve the Purchase of a Superior Playground Structure and Shade Sail Structure in the Amount Not to Exceed \$42,100.35 from Kraftsman Commercial Playground and Water Parks, Inc.
