This estimate is based on operational and visual inspections, upon disassembly of components additional parts and labor may be required to complete the necessary repairs. If the necessary additional repairs are within 10% of the quoted amount customer authorizes the dealer to proceed with the repairs. In the event that the necessary repairs exceed the 10% of the quoted amount then an additional quotation will be required prior to completing the necessary repairs. All quoted repairs are plus applicable sales tax and shipping of non-stock parts.

This estimate is based on operational and visual inspections, upon disassembly of components additional parts and labor may be required to complete the necessary repairs. If the necessary additional repairs are within 10% of the quoted amount customer authorizes the dealer to proceed with the repairs. In the event that the necessary repairs exceed the 10% of the quoted amount then an additional quotation will be required prior to completing the necessary repairs. All quoted repairs are plus applicable sales tax and shipping of non-stock parts.
