

DATE: July 9, 2025  
TO: City Council  
FROM: Ted Henry, City Manager  
SUBJECT: Catwalk and Fuel Center Purchases

---

### Summary

As construction of our new public works facility progresses, it's time to order custom or specialty equipment to ensure timely installation. The two requested purchases on the agenda have been solicited and reviewed by our Ownership Representative, Project Architect, and Staff. These specialized purchases were chosen by the project team based on quality, value, and timeline, and the prices align with the original project estimates.

#### Catwalk:

The customized catwalk for the facility will optimize space utilization and provide essential storage capabilities to the building.

#### Fuel Center:

The fuel center equipment will include a 1,500-gallon tank and a 1,000-gallon tank to be installed on the property, replacing our current 500-gallon tank. This upgrade will significantly increase our capacity and enable departments like the police to benefit from bulk fuel purchasing cost savings.

Kirk Jurgensen will attend the meeting to discuss details and address any questions.
