

## MANAGERS REPORT

**DATE**        October 6, 2023  
**TO:**         Mayor Benage and City Council  
**FROM:**      Ty Lasher, City Manager  
**RE:**         October 10 Workshop Agenda

---

### **Streets – TranSystems Study:**

At the July 11<sup>th</sup> City Council meeting, TranSystems was hired to complete a streets assessment study of Rock Road from K-254 to 45<sup>th</sup>, Webb Road from K-254 to 45<sup>th</sup> and the intersections of K-254 & Rock, Webb and Greenwich. They have prepared a preliminary report to share with the Governing Body. This information will assist in the KDOT local consults as well as capital planning for these streets.

### **Streets – Gravel Roads Task Force:**

In 2022, the Governing Body established a citizen's Gravel Road Task Force, in response to concerns about drainage and dust on gravel roads in the Aurora Park neighborhood. The Task Force concluded their work and submitted their final recommendation to the Council which is on the agenda for discussion.

### **Sign Codes:**

With the general election around the corner, signs become a topic of discussion. Council asked Maria to review our current codes and share any suggested changes.
