Public Records Policy

The City of Belle Isle policy is that all records shall be open for personal inspection by any person unless those records are exempted under the terms of Chapter 119, Florida Statutes.

This policy allows access to public records during regular working hours – Monday to Friday, 8:00 a.m. to 5:00 p.m. The City will make every effort to respond fully to all public records requests within a reasonable time.

A service charge, in addition to the actual cost of duplication, will be assessed if the nature or volume of public records requested to be inspected, examined, or copied is such as to require extensive use of information technology, resources, comprehensive clerical or supervisory assistance by personnel of the City, or both. This service charge shall be based on the actual cost incurred for such extensive use of information technology resources and the labor cost of the personnel providing the service, based on the actual labor (base hourly salary) of the employee who performs the task.

Special Service Charge: The special service charge will not be charged unless the estimated time for fulfilling the request exceeds 15 minutes. The City may also charge an employee to sit with the requester during the inspection to safeguard the City's records from theft, destruction, or alteration.

Deposit: The records custodian will provide the requester with a cost estimate for fulfilling the public records request. Suppose the estimated cost is less than \$100. In that case, the requester shall be required to pay the total amount before the records custodian begins collecting, duplicating, and redacting the requested records. If the estimated cost exceeds \$100, the requester shall pay 50% of the estimated cost before the records custodian begins collecting, duplicating, and redacting the requested records. Upon completion of document collection, reproduction, and redaction, a cost invoice will be provided to the requester that reflects the time and expenses incurred to fulfill the request. Fees collected exceeding the actual cost incurred shall be returned to the requester.

Unpaid requests: If a requester has any outstanding public records requests for which the City completed the work to fulfill the request but has not received full payment, the requester shall be required to pay for the previously unpaid request(s) before the City will process a new public records request.

Payment: Cash, personal check from a local bank, money order, or certified check shall be paid before delivering the materials. Any check, money order, or certified check shall be payable to the City of Belle Isle.

Return Check: * If payment is not received within 30 days, the City may file a civil action suit against the check writer for three times the check amount, but in no case less than \$50.00. In addition to paying the check plus any court costs, reasonable attorney fees, and any bank fees incurred by the City in taking action.

NOTE: 166.251 Service fee for dishonored check. The municipality's governing body may adopt a service fee that does not exceed the service fees authorized under s. 832.08(5) or 5 percent of the face amount of the check, draft, or order, whichever is greater, for collecting a dishonored check, draft, or other order to pay money to a municipal official or agency. The service fee shall be in addition to all other penalties imposed by law. Proceeds from this fee, if charged, shall be retained by the collector of the fee.

City Engineering Team ReviewAt Cost

Applications tabled at the applicant's request within ten days of the Planning and Zoning meeting will be charged for additional advertising and notification.

Costs incurred by the City for additional consultant investigation, traffic analysis, and Planning activities prompted by the proposal shall be assessed for the project at 110%. This charge shall be added at the next logical development review point when a fee to the City is required, e.g., a rezoning, subdivision, conditional use, or building permits.

Application and Review Fees: Application, administrative-processing, plan-review, zoning-review, and engineering-review fees are nonrefundable once the City begins processing or reviewing the application, regardless of whether the application is approved, denied, withdrawn, abandoned, or expires. Payment of a fee does not guarantee approval. A refund may be issued for a duplicate payment, overpayment, City billing error, or when otherwise required by law.

ZONING: DEVELOPMENT IMPACT FEES

BUILDING AND PERMITTING FEES

- In addition to all typically required permit and inspection fees, a penalty equal to the sum of all costs imposed by the City and any and all other building permit authorities is a prerequisite to issuing the building permit.
- Private Third-Party Inspection Fee(s) may be assessed (See Resolution 25-11 – Private Provider Inspection Policy (PPI))

% of valuation cost is based

BUILDING PERMIT FEES

Permit Submittal Fee-1% of the value of work, with a minimum fee of \$50.00 and a maximum fee of \$250.00-Non-Refundable.

Building and Construction Support Fees

Minimum permit fee: \$150 for a re-roof permit and \$100 for every other building, electrical, mechanical, plumbing, or gas permit. Calculate the fee using the applicable line item below; if the result is less than the applicable minimum, charge the minimum. A lower amount shown in a line item does not override this minimum. Fees for services that are not permit fees, such as reinspections, are charged as separately listed.

PERMIT REFUNDS

- A. A written request is required to obtain a refund. No refunds will be given on a submittal, license, or temporary electrical construction service unless issued in error by the City. The fee for refunding original building, roof, electrical, gas, mechanical, or plumbing permit fees would be a minimum of \$31.00 or 1/3 of the permit fee, whichever is greater, unless the license was issued in error by the City.
- B. No refund will be issued on any permit on which construction has begun.
- C. No refund will be issued on any permit for three months or more.
- D. No refunds will be issued on Engineering, Planning, or Zoning fees where the review has begun.
- E. Fees may be adjusted annually for changes in the Consumer Price Index or 3%, whichever is less.

BUILDING AND PERMITTING FEES**Electrical**

ELECTRICAL PERMIT FEES: Electrical permit fees are based upon the total amperage of the service required to meet the needs of all fixtures, etc., installed. Service is determined by the KVA Load available to the premises (Refer to Paragraph C for charges not requiring a change of service). Typically, one Electrical Permit is required for each recording watt-hour meter service. Should circumstances (as determined by the Building Official) make it more practical to issue one Permit involving more than one service, the fee shall be calculated using the sum of the costs of all individual services included in the Permit.

BUILDING AND PERMITTING FEES**Mechanical (Continued)**

*According to the Florida Power Plant Siting Act, Chapter 403, Part II, Florida Statutes, a local government may only charge an "appropriate fee" and mechanical equipment directly related to electrical power generation as a disproportionate part of the total valuation. Therefore, the Belle Isle Town Council deems it appropriate, in those situations of construction permitted under Chapter 403, Part II, to value mechanical equipment directly related to electrical power generation at a rate of twenty-five percent (25%) of the actual Cost of such mechanical equipment in the calculation of "total valuation" hereunder.

BUILDING AND PERMITTING FEES
ENGINEERING, STORMWATER, BMP AND EROSION-CONTROL REVIEW

All permits submitted for review are subject to the engineering-review fee. The fee applies regardless of whether a particular permit requires additional review by the City Engineer or the City's engineering consultant. Engineering review may include, but is not limited to, building permits, site work, grading, drainage, stormwater, erosion and sediment control, shoreline work, land disturbance, and related activities.

SERVICE	FEE
Initial engineering review	10% of the applicable City permit fee; \$150 minimum and \$1,500 maximum
Reviews included in initial fee	Initial review and one corrected resubmittals (two review cycles total)
Third and each subsequent review	110% of the City's actual consultant cost; \$150 minimum per review
Additional engineering services	110% of the City's actual consultant cost
Engineering field inspection or reinspection	110% of the City's actual consultant cost; \$150 minimum
Special meeting requested by applicant	110% of the City's actual consultant cost
<i>Work commencing without required BMP approval</i>	<i>Double the applicable engineering-review fee, subject to authorization in the City Code</i>

Example:

Permit fee of \$500 → engineering fee is the \$150 minimum.

Permit fee of \$2,500 → engineering fee is \$250.

Permit fee of \$8,000 → engineering fee is \$800.

Permit fee of \$20,000 → engineering fee is capped at \$1,500 unless additional review costs are incurred.

APPLICATION AND ADMINISTRATION

1. The applicable City permit fee means the permit fee before state surcharges, impact fees, zoning fees, penalties, or other unrelated charges.
2. For counting review cycles, the original submittal is the first review, and the first corrected resubmittal is the second review.
3. Additional charges apply when a third or subsequent review is required because plans remain incomplete, previously identified deficiencies have not been corrected, or the applicant materially revises the proposed work.
4. Beginning with the third review, the City will invoice the applicant after receiving the engineering consultant's charges. Each invoice will equal 110% of the actual consultant cost incurred by the City, subject to the applicable minimum fee stated in this schedule.
5. *As applicable to the permit, application, project, or regulated activity under review, no additional engineering review, approval of revised plans, final engineering approval, permit issuance, certificate of completion, or certificate of occupancy shall proceed until all outstanding engineering-review charges have been paid.*
6. The initial engineering-review fee is nonrefundable once engineering review has begun. Charges based on actual consultant costs are due upon invoice and are nonrefundable after the consultant services have been performed.
7. The City Manager or designee may waive the engineering review requirement and associated initial engineering-review fee when the proposed work presents no material drainage, stormwater, erosion-control, shoreline, right-of-way, or other engineering issue.

STATUTORY AND ACCOUNTING NOTICE

Fees attributable to enforcement of the Florida Building Code shall be administered and accounted for in accordance with section 553.80, Florida Statutes. Consultant charges attributable to stormwater, drainage, grading, BMP, erosion-control, shoreline, land-development, or other local regulatory review are separate regulatory cost-recovery charges imposed pursuant to the applicable City Code and fee schedule. Such charges shall not be treated as Florida Building Code fee revenue except to the extent that the underlying services directly relate to enforcement of the Florida Building Code.

The enhanced repeat-review fee required by section 553.80(2)(b), Florida Statutes, for repeated rejection of design-professional documents involving the same continuously noted Florida Building Code violation is separate from the consultant cost-recovery fees stated above and shall be imposed when the statutory conditions are met.

Engineering, Stormwater, BMP and Erosion-Control Review

All permits submitted for review are subject to the initial engineering-review fee shown on page 22, regardless of whether a particular permit requires review by the City Engineer or the City's engineering consultant. The applicant shall pay an engineering review fee equal to ten percent of the applicable City permit fee, subject to a minimum fee of \$150 and a maximum initial fee of \$1,500.

No escrow/deposit required: The City will invoice additional consultant-based charges after the services are performed, at the rates stated on page 22. The City does not require an escrow deposit for those charges.

The initial engineering-review fee includes the initial review and one corrected resubmittal, for a total of two review cycles. For purposes of this schedule, the original submittal is the first review, and the first corrected resubmittal is the second review, and the second corrected resubmittal is the third review.

Beginning with the third review, each additional review shall be charged to the applicant at 110% of the actual consultant cost incurred by the City, subject to a minimum charge of \$150 per additional review.

Engineering consultant charges shall be associated with the applicable permit, application, project, or regulated activity so that the City can identify the services performed and properly account for the related regulatory review costs.

The applicant shall also reimburse the City at 110% of the actual engineering-consultant cost incurred by the City for special studies, meetings, field inspections, re-inspections, drainage evaluations, erosion-control evaluations, BMP compliance, plan revisions, or other engineering services exceeding the review services included in the initial fee.

When engineering services result in charges exceeding the initial engineering-review fee, all outstanding engineering-review fees and consultant charges shall be paid before further engineering review, issuance of the permit, approval of a revised plan, scheduling of a final engineering inspection, or issuance of a certificate of completion or certificate of occupancy, as applicable. (Example: The engineering consultant performs the additional service → the City receives the consultant charge → the City invoices the applicant → the applicant pays before the project proceeds → the City receives the charge → the City invoices the applicant → the applicant pays before the project proceeds).

Engineering-review fees shall be consistently applied and shall not exceed the reasonable cost of providing the applicable review and related services. Fees attributable to enforcement of the Florida Building Code shall be administered and accounted for in accordance with section 553.80, Florida Statutes. Consultant charges attributable to stormwater, drainage, grading, BMP, erosion-control, shoreline, land-development, or other local regulatory review are separate regulatory cost-recovery charges imposed pursuant to the applicable City Code and fee schedule. Such charges shall not be treated as Florida Building Code fee revenue except to the extent that the underlying services directly relate to enforcement of the Florida Building Code.

Application and Review Fees: Application, administrative-processing, plan-review, zoning-review, and engineering-review fees are nonrefundable once the City begins processing or reviewing the application, regardless of whether the application is approved, denied, withdrawn, abandoned, or expires. Payment of a fee does not guarantee approval. A refund may be issued for a duplicate payment, overpayment, City billing error, or when otherwise required by law.

ZONING FEES

CITY CODE OR ORDINANCES - CHAPTER 6, ARTICLE 1, SECTION 6-5 – Last Update Ordinance 21-01

(d) AFTER THE FACT FEE (ATF) and WORKING WITHOUT A PERMIT (WWP) Permit Fees/Penalties:

1. (i.e., Project Completed) The fee for an ATF permit is the Cost of the Permit plus any inspection costs related to inspections conducted by the City in accordance therewith.
2. (i.e., Project Is Not Completed) The fees for a WWP permit is \$500 plus double the Cost of the applicable permit fee plus all costs related to the City's issuance of the Permit and inspections. Mere payment of a WWP fee may not be used as a defense in a Code Enforcement or other similar case for performing work for which a permit was required without first obtaining a necessary permit. Full and timely compliance with this code is required.

(e) Additional Procedures and Regulations: The City Council may, by Resolution, provide for further clarification of or additional procedures for this section 6.5 – Failure to Obtain Permit as may be necessary, so long as such clarifications or procedures are not inconsistent with this section 6.5 or the City's code.
