SUBSECTION (D), a literal enforcement of the provisions of the zoning ordinances would result in unnecessary hardship and that said hardship is created by special conditions and circumstances peculiar to the land, structure or building involved, including but not limited to dimensions, topography or soil conditions.

SUBSECTION (E), personal hardship is not being considered as grounds for a variance since the variance will continue to affect the character of the neighborhood after title to the property has passed and that the special conditions and circumstances were not created in order to circumvent the Code or for the purpose of obtaining a variance.

SUBSECTION (F), the variance is the minimum variance that will make possible the reasonable use of the land, building or structure.

SUBSECTION (G), the granting of the variance will be in harmony with the general purpose and intent of the Code, will not be injurious to the neighborhood, will not be detrimental to the public welfare, and will not be contrary to the public interest.
