**Recommended Action:**

Staff recommends the passage of this support resolution.

**Item Summary:**

**General Info:** The goal of the State and Local Cybersecurity Grant Program (SLCGP) is to help states, local governments, rural areas, and territories address cybersecurity risks and cybersecurity threats to information systems. The program enables DHS to make targeted cybersecurity investments in state, local, and territorial government agencies, thus improving the security of critical infrastructure and resilience of the services that state, local, and territorial governments provide to their communities.

The Cybersecurity and Infrastructure Security Agency (CISA) and the Federal Emergency Management Agency (FEMA) are jointly managing the SLCGP. CISA will provide subject-matter expertise and determine allowable activities, while FEMA will conduct eligibility reviews and issue/administer the grant awards consistent with all applicable laws, regulations, and policies.

This application is due June 17, 2024; the Town Administrator is working with the Town's IT firm on an application.
