

12. Comments-Code Enforcement

There are a few widely-known pet owners that let their dogs roam off leash. We literally saw one of them almost get hit by the UPS truck. Another friend's dog got hit within the past few months. Bad for animal safety and dog-aggressive leashed pets.

Always need enforcement to be maintained to the highest standards.

If the codes are readily available, then Codes should be adhered to. If there is a consistent repeat offender, then let the law take care of it

Don't care. Speeding is my only concern there.

The laws/rules do not matter if they are not enforced.

Generally good presents is noted with police making rounds in the neighborhood. I do notice a lot of aggressive drivers passing inappropriately on the highway.

How are the short term rental codes being enforced, ie: amount of people within each unit.

What's fair/enforced for one should be fair/enforced for another.

Seems to work based on my perspective

Especially use of fire pits.

enforcing the law is a dereliction of duties. Like "Safety", this topic is a stand-alone function and need not be on the priority list.

Enforcement of town codes and ordinances is essential- otherwise why have them?

Speeding seems important to keep to a minimum

Major concern that STR enforcement relies on neighbor complaints. I can make an STR complaint every day but won't. Why do residents need to be schoolyard snitches to a Board of Trustees policy?

of the community. Seems many who use their property for income generation fail to keep up the exterior yards.

Is this question related to short term rentals or other issues?

It depends a great deal on which codes.

Illegal parking on residential streets.

its a small community and neighbours tend to take care

I think occupancy limits should be enforced more strictly. We adhere to them and other homes in the community don't. That gives all of us that rent a bad reputation. It is not ok to do reactionary, additional regulations if you are not enforcing.

The Town is famous for not enforcing code. Town government is famous for including provisions in the code documents that the Town has no intention of enforcing. Existing code is enforced for some but not others. Enforce code equally for all.
Hwy speed still to high. Work with CDOT to reduce. Even Hartsel has a lower limit than BR!
I see the numbers in the EOY summary but have never seen a code issues directly.
Major code violations or code violations that affect neighbors (trash, abandoned cars, fencing etc.) should be dealt with in a timely manner.
Unleashed dogs are a problem, especially on trails and with encounters with Moose.
Get after the folks who just let their dogs run and don't clean up after them
Mainly for STRs. I heard from local realtors that Blue River is the hot spot to sell homes for STRs due to lack of restrictions and enforcement. Seeing 10 cars parked at a 3BR house is disturbing

Particularly related to fire danger

Rules don't work unless they are enforced. If the STRs would keep the noise down and the trash picked up there wouldn't be any problems.

I wouldn't mind seeing more leash laws enforcement as I am constantly having to chase dogs out of my yard and away from my dog that does not get along with other dogs.

Painting colors that aren't approved and the list goes on. It would be nice to keep consistency in the town.

We have the codes but NO monitoring!

Proliferations of following should be curtailed: unpermitted sheds, long term RV parking, landscaping with concrete jersey barriers.

Especially when the Tarn opens. A lot of nonresidents have used it in the past and it would be nice to have less nonresidents use it.

Too many berms on Hwy 9

We need more code enforcement. Very seldom do we ever see police car. Ever since Officer Ameid left it is hard to see a police car.

resident and are thereby in violation of State Law and infringing upon the down state water rights of CA, AZ and NV.

Enforce, but be reasonable

Wash machines and old refrigerators are left out in the yard.

More STR enforcement. Parking, Occupancy limits. Most code enforcement seems on track.

Have no idea

No enforcement for short term regulations

this should address most "short term rental" concerns.

dark sky initiatives continue to be an issue with neighbors that don't comply and leave bright lights on all night. I love that dogs can be off leash but they can also cause an issue when owner is not in control of them. Trash is an ongoing issue

Would appreciate more town police visibility

This will always be a tricky area, in that it can require a significant amount of staff time and is hard to have a full-time person just going around doing this. That really only leaves the town to be able to react when something specific comes up.

parking.

Codes and laws are meaningless unless enforced

0 enforcement in place

I think occupancy limits should be enforced more strictly. We adhere to them and other homes in the community don't. That gives all of us that rent a bad reputation. It is not ok to do reactionary, additional regulations if you are not enforcing.

would be reasonable, they park on the street. It seems that on multiple occasions they will interfere with plow operations

Stay on neighbors to enforce dark sky please!

All codes should be enforced.

One of the things that bothers me about code enforcement is the charging for everything we do it seems like it's out of hand

I'm told that residents must make complaints. and sign it. No one ever asked me to be part of your enforcement. If the town cannot enforce codes with fees based staffing, they shouldn't have the codes. I don't want to be the schoolyard snitch.

The town does a good job of patrolling. Speeding on the highway is inevitable and it is a shame the wildlife is who suffers.

Joke!
