

TOWN COUNCIL

STAFF REPORT IT Department

MEETING DATE:	June 13, 2023
PROJECT:	Consideration of Renewal of a Software Agreement for GIS Technology
PROJECT MANAGER:	Tracye Stormer, Chief Information Officer

RECOMMENDATION: Staff recommends renewal of the Small Municipal and County Government Enterprise Agreement license for a three-year period with ESRI for the Geographic Information System (GIS) technology software.

BACKGROUND/DISCUSSION: Geographic Information System (GIS) software is the software that analyses and displays geographically referenced information. It is the capability that allows the Town of Bluffton to provide superior mapping data for our Town website and can provide real-time location information in the event of an emergency.

ESRI has provided a three-year license for the most competitive cost.

NEXT STEPS: Authorizing the Town Manager to sign the renewal agreement with ESRI.
