# Background

The easement allows Dominion the right to:

1. Construct, extend, replace, relocate, perpetually maintain and operate an overhead or underground electric line or lines;
2. The right, but not the obligation, to trim, cut or remove trees, underbrush and other obstructions that are within, over, under or through a strip of land ("Easement Space") extending fifteen (15) feet on each side of any pole lines and five (5) feet on each side of any underground wires and within, over, under or through a section of land extending twelve (12) feet from the door side(s) of any pad mounted transformers, elbow cabinets, switchgears or other devices as they are installed; and
3. Any damage to the property of Town other than that caused by trimming, cutting or removing caused by Dominion in maintaining or repairing said lines, shall be borne by Dominion.

The easement states the Town agrees to the following:

1. Not to build or allow any structure to be placed on the premises in such a manner that any part thereof will exist within the specified Easement Space;
2. In case such structure is built, then the Town will promptly remove the same upon demand of Dominion;
3. The Town further agrees to maintain minimum ground coverage of thirty six (36) inches and maximum ground coverage of fifty four (54) inches over all underground primary electric lines; and
