

I would like to keep the existing drive way because:

- 1) It's already there.
- 2) Removing it would take a lot of effort and money.
- 3) It would be useful for parking cars, since we don't want to park them on the side of the road, so other cars could hit ours because it's a curve right there.

Angelica Araiza

It won't block existing utilities.

It's not going to affect the front landscaping, and the front yard is going to be over 20% landscaped.
