

Proposal for
City of Breckenridge

10-07-2021
Job # 101967-01

City of Breckenridge

A PLAYCORE Company

800.235.2440 | gametime.com

ABOUT GAMETIME

GameTime creates fun, healthy and active places where all children and families become physically, emotionally and socially strong.

GameTime is a leading designer of commercial playground equipment, outdoor fitness products, custom recreation spaces, and site furnishings. We strive to create the kinds of places people love and where people love to play.

Play and recreation is a fundamental human right, and we take our role in helping communities create active, healthy places seriously. We focus on inclusion, diversity and equity in our playground designs, align our products with the research of leading play, health, and wellness experts, and advocate tirelessly for the advancement of safer, more accessible and fun places that bring people together.

This is our mission since 1929: to build the highest quality products, design the most memorable play and recreation experiences, and to lead the industry with innovative solutions that help people of all ages, all abilities, and all backgrounds realize the transforming power of play.

COMPLIANCE

Industry standards set a minimum level that playground manufacturers must meet. We meet or exceed those standards, because we understand that the ultimate playground offers peace of mind, as well as playful experiences.

AMERICAN SOCIETY FOR TESTING AND MATERIALS (ASTM)

Several key people at GameTime, including our Manager of Compliance and Standards, serve on the ASTM committee that sets the standards for the entire playground industry. GameTime products conform to that standard, ASTM F1487-07, the Standard Consumer Safety Performance Specification for Playground Equipment for Public Use.

CPSC

The Consumer Product Safety Commission is an independent agency within the United States Federal Government with the authority to inform the public of current product safety performance information and recommended practices. The CPSC first published their guidelines for public playgrounds in 1981 and have updated their publication since then. The current CPSC Handbook for Public Playground Safety, publication #325, is an excellent guide for owners and operators of public play environments.

IPEMA EQUIPMENT CERTIFICATION

GameTime is one of the founding members of IPEMA, and several of our people serve as board members, committee members and chairpersons of the association. In the interest of public playground safety, IPEMA provides a 3rd party certification, to validate conformance to established standards. Our use of the IPEMA seal is your assurance that GameTime has received written validation from an independent lab that the products associated with the seal conform with the ASTM standard, as well as the Canadian CSA standard CAN Z-614. A list of our validated products may be found on the IPEMA website, www.ipema.org.

IPEMA SURFACING CERTIFICATION

GameTime's GT Impax product provides you with the assurance that our surfacing has been certified as compliant to the appropriate ASTM standard. In the interest of public playground safety, IPEMA provides a third party certification to validate a manufacturer's conformance to the ASTM F-1292-99 Standard Specification for Impact Attenuation of Surface Systems Under And Around Playground Equipment. The use of the IPEMA Certification Seal displayed above signifies that the manufacturer has received written validation from the independent laboratory that the product associated with the use of the seal conforms with the requirements of ASTM F1292-99. A complete list of our validated products may be found on the IPEMA website at www.ipema.com.

ADA

GameTime is the only manufacturer to have a lab partnership with an Institute for children with special needs, so that we can develop and test our accessible products for superiority before bringing them to market. GameTime is also the only manufacturer to meet accessibility guidelines on all of its pre-designed PowerScape Plus and PrimeTime playground plans. We also recommend accessible surfacing options. For more information, log on to www.access-board.gov

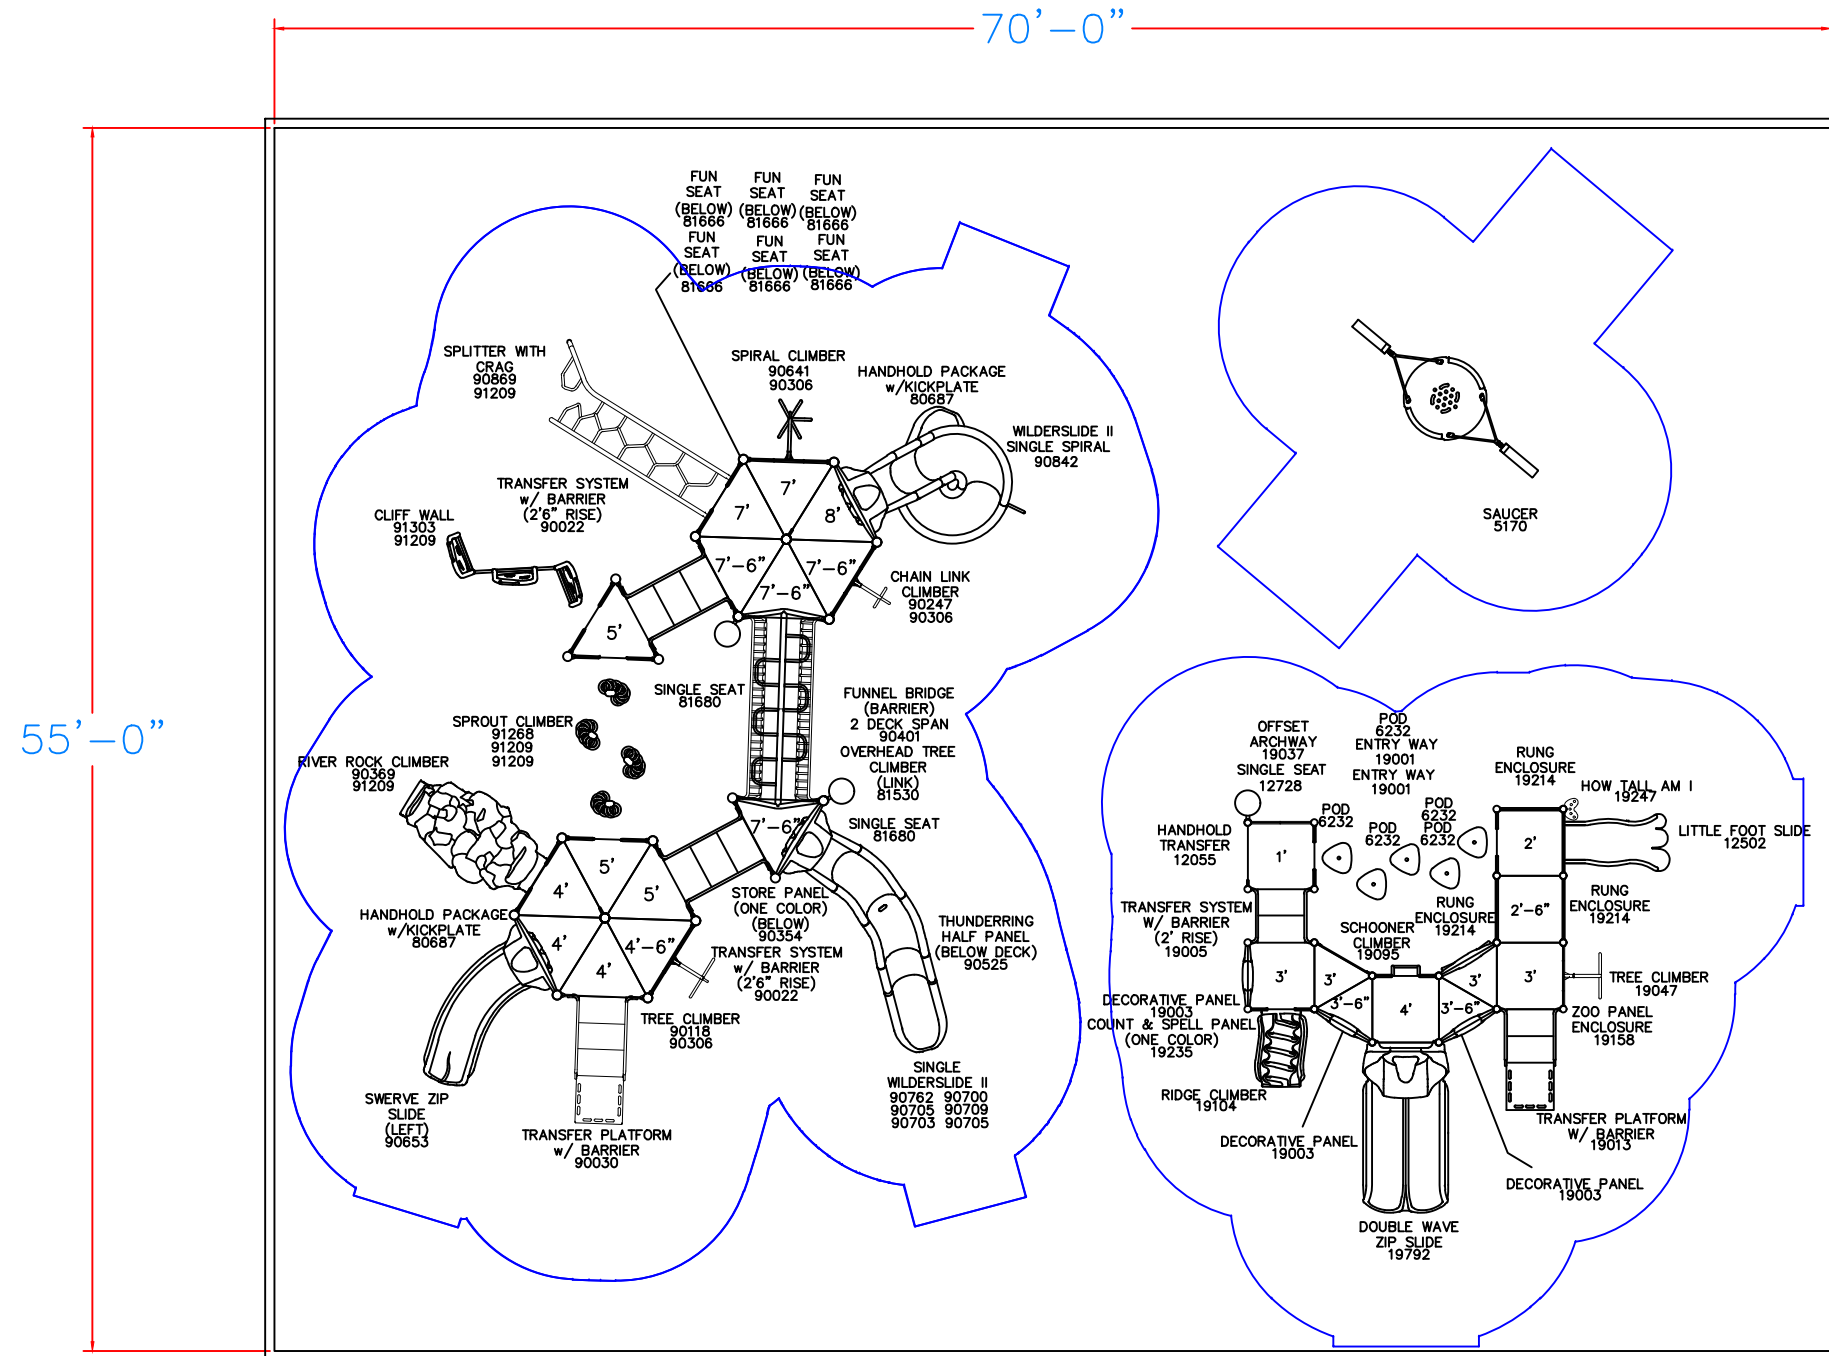

ISO 9001:2000

GameTime is the first playground manufacturer to obtain the ISO9001:2000 standard. In order to obtain this certification, the company's manuals, policies, objectives and quality procedures are closely examined during a surveillance audit by ISO representatives. Strict attention is paid to policies and procedures in manufacturing, communication channels, system monitoring, customer relations and order processing, which are reviewed for consistency and standards. Companies who meet the standard are awarded the ISO designation.

TUV

An international organization that is a European Union Notified and Competent Body, providing testing and certification. Use of the TUV seal demonstrates that products have passed a comprehensive testing procedure based upon the European Harmonized Standard for Commercial Playground Equipment, and that the GameTime plant is regularly monitored by TUV.

Quote #101967-01-01

TJ-09070-21 Miller Park - Grant Equipment

This quotation explicitly excludes any and all items not expressly specified or identified above. No other product, equipment, or service is included, regardless of any Contract Document, Contract Section, Plans, Specifications, Drawing, or Addendum. Delivery for most GameTime equipment is approximately 12-14 weeks after all order documents have been received and payment terms have been approved. A current, approved credit application is required for N30 terms. To place an order, you must provide a purchase order or a signed Total Recreation Products, Inc. (hereafter described as TRP) quote, assigned to GameTime. Neither general contractor nor subcontractor contracts can be accepted. Purchase documents that contain indemnity or hold harmless conditions cannot be accepted. Retainage is not permitted. The following must be received before your order can be processed: complete billing and shipping addresses, a contact name and phone #, and all color choices. Manufacturer's colors may vary from year to year. You are responsible for ensuring that any required submittal approvals are completed before placing your order for processing. TRP reserves the right to limit submittals to one copy. Shop drawings, blueines, sepias, are not available. Closeout documents may be limited to GameTime or TRP standard issue. If Sales Tax Exempt, a copy of your tax exemption form or resale certificate must accompany your order, or any applicable sales tax, will be added to your invoice. Most GameTime products are shipped from the Ft. Payne, AL plant. GameTime cannot hold orders or store equipment. Equipment is invoiced when shipped. If a cash sale, your payment must be received in full before the order will be processed. Contractors must also provide copies of current, fully executed bid/performance/payment bonds, as applicable. Pricing shown does not include any charges for permits, bonding, prevailing wage, or additional insured certifications.

Unless otherwise noted, any quantity of surfacing or playcurbs quoted has been calculated specifically for the equipment and layout shown. No additional surfacing or curbing is included, and no allowance has been made, for an unleveled, convoluted or larger site, or for a different layout. Neither GameTime nor TRP is responsible for any surface, curbing, border, or drain that is provided by others. Also please confirm that your area is adequate for the equipment that you are purchasing.

Installation charges, if quoted, are for a "standard" installation unless specifically noted to be otherwise. Installation charges are due upon completion. Standard installations are based upon a soil work site, that is freely accessible by truck, (no fencing, tree/landscaping or utility obstacles, etc.), and level, (+/- 1-2% maximum slope). An accessible water source must be available to the installer. Any site work that is not expressly described is excluded. Standard installation does not include any extra or additional machinery, drillers, etc., for rock excavation. If rock conditions are encountered, additional charges will apply.

Standard installations generally require from 2-10 business days to complete, depending upon the amount and type of equipment, site conditions, weather, and the installer's schedule. Work may or may not be performed in consecutive days. Playcurbs are staked in, not set in concrete. Engineered wood fiber and shredded rubber surfacings are spread, not compacted, rolled, or watered. Landscape timbers are not warranted. The Customer is responsible for locating and clearly marking all underground utilities in the installation area before any installation work can begin. The installer is not responsible for damages, repairs, or discontinuance of business due to damaged utilities.

If applicable, sprinkler system locates, re-working and repairs are excluded from installation charges. Installation of all products, (equipment, borders, fall surfacing and amenities) are as quoted and approved by acceptance of quotes and drawings. As a precautionary measure, work in progress areas will be taped off at the end of the workday. Pier spoils from installation shall be spread at site, site will be left rough grade. The installer is not responsible for any damages or re-work resulting from after hours events or activities during the work in progress period. Temporary fencing is only provided by specific request, and additional charges will apply. Collectively and/or individually, not the manufacturer, TRP, their representatives, nor the installation company shall be held liable for any damages resulting from misuse, vandalism, or neglect. Any deviations from approved and accepted placement of all items, along with additional work, over and above quoted items, will be chargeable to the customer. Once work is completed the customer will be notified if present at the job site, and all responsibility of any new work will be transferred to the customer. The customer is responsible for maintaining the integrity of completed installation work until all components have seated and/or cured (concrete footings, etc.). Your project site must be completely prepared and ready to receive your equipment before any installation work begins. Acquisition of any and all permits is the sole responsibility of the customer. Additional charges may be billed for any extra hours or trips needed as a result of the work site not being ready. Neither the installation contractor, GameTime nor TRP will be responsible for delays caused by shortages, incorrect parts, weather conditions, other contractors, or lack of site readiness.

If you are receiving your equipment, you are responsible for unloading and accepting delivery from the freight company and reporting any damaged freight or shortages on the freight bill at the time. You will also be responsible for a complete inventory of your received equipment and reporting any discrepancies to us immediately. Neither the freight company nor the manufacturer will resolve shipment discrepancies that are not reported immediately. Make sure that all items have been received before any type of installation work is scheduled. The freight carrier will be instructed to call your designated contact 24 hours before delivery to arrange a delivery appointment.

Once accepted, orders can only be changed or canceled with the consent of GameTime and TRP, and on terms that will indemnify them against loss. Changed or canceled orders are subject to a \$100.00 service charge. Additionally, canceled orders are subject to a 25% restocking fee, plus freight charges (to and from). Built-to-order equipment orders are non-cancelable. Changes to orders that have been shipped and invoiced are subject to the above \$100.00 service charge plus additional restocking/return charges of 25%. Non-returnable items shall be charged at full invoice value. Any return transportation charges shall be for the Buyer's account. Replacement parts are also subject to the cancellation/returns policy. Please carefully review any research information that has been sent to you and confirm that you are ordering the correct replacement parts for your equipment. This quotation is valid until November 2nd. After that date, please request an updated quote. Prices may be subject to material and fuel surcharges at the time of shipment and are subject to change without notice. Current prices will apply at the time of shipment. Acceptance of this quote indicates your agreement to GameTime's credit terms, which are net 30 days, FOB shipping with approved credit. Any deviations from this proposal may invalidate the quoted pricing and/or terms.

A PLAYCORE Company

Dear Valued Customer:

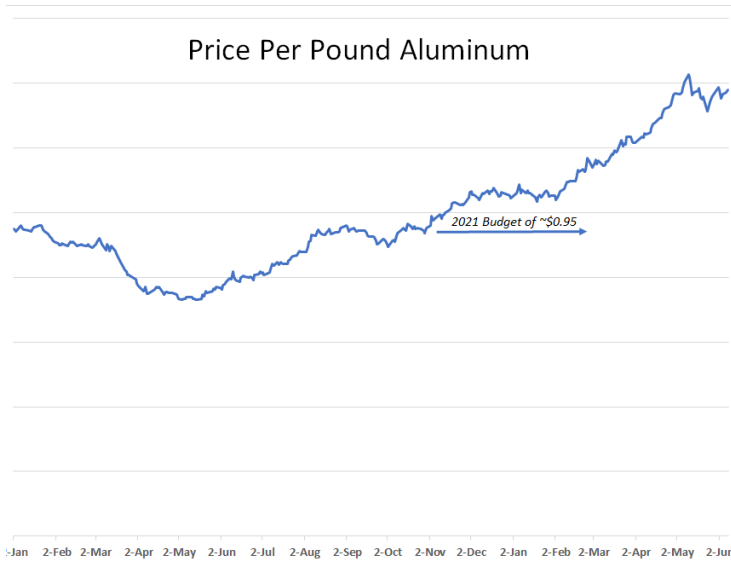

While we remain committed to effectively managing our product pricing to the best of our ability, we continue to experience unprecedented volatility in commodity prices with COVID-19 related production slowdowns and capacity challenges our raw material suppliers are facing, as depicted in the following summary. Due to the dramatic impact of these increases, it has become necessary for GameTime to implement an additional material surcharge effective for orders submitted on or after July 12th, 2021.

Along with our local representatives, we will ensure your projects continue to meet the best-in-class product quality and service you expect from GameTime. We will monitor market conditions closely and communicate with you to ensure your projects provide exceptional value to the communities you serve.

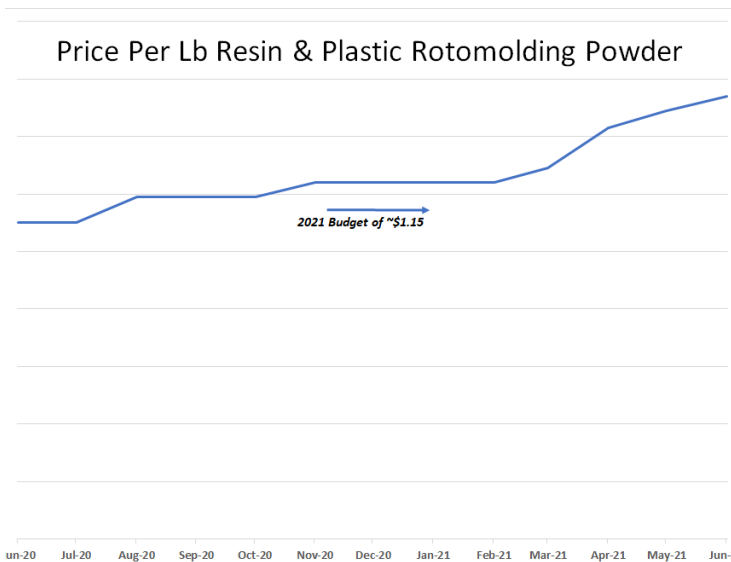

Thank you for partnering with us to build communities and enrich lives through play and recreation. We are grateful for your continued resilience and commitment to creating playful places for all ages and abilities. If you have any questions or a project you would like to discuss, please contact your local GameTime representative at 800-235-2440.

- Suppliers idled furnaces in 2020, pushing inventories to scarce levels
- 2021 demand returning at a rate faster than supply
- Many suppliers continue facing challenges with ramping up production due to COVID-19 related restrictions
- YOY cost increases exceeding 275%

- Strong exports to Asia in 2020 depleted U.S. inventories
- Continued strength in export market and increased demand in U.S. manufacturing resulting in supply chain difficulty
- YOY cost increases exceeding 65%

- Most active Atlantic hurricane season on record caused suppliers to idle production
- Many suppliers implementing 50% material allocation to primary buyers in attempt to catch up to normal production and inventory levels
- YOY cost increase exceeding 35%

S. Spencer Cheak
 GameTime President
 150 PlayCore Drive S.E.
 Fort Payne, AL 35967

GameTime is a leading US manufacturer of commercial playgrounds, custom play spaces and outdoor fitness equipment. Our products combine play research with thoughtful design to create award-winning playgrounds for people of all abilities. Since 1929 we have partnered with local and national advocates for play to build healthy, active communities for this generation and the next. Find out more about our mission of enriching the lives of children and families through play at www.gametime.com.

For any questions, please contact us 800-235-2440.

ENGINEERED WOOD FIBER

An affordable natural surfacing choice that meets accessibility guidelines.

AT A GLANCE

Maintenance: High Access: Mid Color Options: N/A Warranty: 15/25 years

DESCRIPTION

Engineered wood fiber from GT Impax is a popular choice for projects with initial budget constraints. This maintenance will help to maintain the recommended compacted material depth, thus keeping the surface compliant with applicable standards and warranty. Once the newly installed product has settled, it forms a “knitted” layer that is designed to support a variety of mobility devices including wheelchairs, crutches, and walkers. Providing adequate drainage is an important preventative measure, because wet engineered wood fiber may freeze in sudden climate changes. GT Impax wood fiber is non-toxic, and does not contain paint, chemicals, or additives. It contains minimal bark, and is free of twigs, leaf debris, and other organic materials.

BENEFITS

- Engineered wood fiber gives your playground an attractive, natural look
- Economical initial cost
- Loose fill materials aid in the protection of children who experience lateral falls

BASIC SPECIFICATIONS

Product is manufactured of size controlled softwoods and/or hardwoods which average 1”-2” in length and contain a maximum of 15% fines to aid in compaction. Engineered wood fiber can be installed over bare earth when Geotextile Fabric is used to enhance drainage.

This product meets all applicable ASTM standards. For more information, please refer to our complete product specification.

TIPS

- Use GT Impax wear mats to reduce displacement in “kick out” areas, raking is required to maintain compliant depths
- As with all loose fill surfaces containment systems like our playcurbs will reduce the spread of surfacing to non-play areas
- Install GT Impax drainage systems to prevent freezing or puddling

DIRECT BOLT®

Direct Bolt connections are accurate, strong, and allow for quick assembly.

FASTER, EASIER INSTALLATION

What our play systems are shipped from our plant, they are ready to be bolted together on site. That means there is no need to measure, drill, or adjust the components in the field, reducing the time required to build the system and ensuring an accurate installation that is compliant with IPEMA and ASTM standards every time. We believe a play system's compliance should be determined by a computerized engineering at the factory, not a person on a job site with a tape measure.

Direct Bolt connections require much less hardware during installation and maintenance. Assembling a GameTime deck to four uprights only requires eight stainless steel bolts inserted into eight precision-drilled inserts. A typical clamp assembly requires thirty-two pieces of hardware that have to be measured, adjusted, and repeatedly aligned until the components are correctly assembled. That's four times the hardware, and four times the time, required to assemble a single deck.

OTHER BENEFITS OF DIRECT BOLT®

Direct Bolt connections are the same structural connection used in bridge, office buildings, and any major construction project where strength, stability, and accuracy are paramount. Direct Bolt connections using threaded insets provide a stronger connection than clamps. When it comes to children's playground equipment, nothing is more important.

Direct Bolt connections are more aesthetically pleasing. Instead of dozens of unsightly clamps attached all over your playground, GameTime play system maintain a sleek, clean design. Moreover, Direct Bolt connection eliminate climbing "footholds" that are endemic to clamp systems, preventing non-compliant and unsafe play behavior.

INSTALLATION EXCELLENCE

Our manufacturer-specific training course is unique and is acknowledged in the industry as a program that should be a model for all.

INSTALLERS WHO SHARE OUR VISION

We want to make sure our installers know safety regulations, industry standards, and how they apply when installing equipment. It is important to us that your installation process goes smoothly, and that everything is done to our exacting specifications. It isn't enough to send our installers to a third party certification program. We want to meet them, teach them, and make sure they know how to install products. All playground equipment is different, and we want to ensure that when they learn how to put a play structure together, they are training on one of ours.

CERTIFICATION MATTERS

GameTime's exclusive Certified Installer Training course has a two-part curriculum. First attendees learn about installation in a hands-on lab where they assemble play structures under the watchful eyes of our on-staff professionals. They learn about new products, modifications, and now industry information. They are also instructed on CPSC, ASTM, and industry regulations in relation to our products and proper installation. They learn how to properly locate and drill ground hole,

recognize and avoid underground utilities, and use the tools needed to ensure an accurate.

The course also includes a lecture series, with focuses on risk management, insurance and many other topics that will give installers the knowledge and skills to make your playground everything you expect it to be. By completing our training, we can have the confidence that no matter where they are in the US, all of our playgrounds are being installed correctly, expertly, and to the exacting standards we maintain throughout the process.

Upon completion of the course our installers sign a contract that we share with our sales force, so that when scheduling an installation our representatives know who to choose to get the job done right. This manufacturer specific training course is unique to GameTime alone, and is acknowledged in the industry as a program that should be a model for all. It's just one more thing that sets GameTime apart, and one more reason you should trust us to be your playground company.

MAINTENANCE

Our comprehensive guide will help you maintain your playground.

IMPORTANCE OF MAINTENANCE

Designing and building a GameTime playground is an important first step in creating play opportunities that enrich the lives of children and the community in which they live. Once the playground is open, however, it is equally important to perform regular inspections and maintenance to ensure your investment, and the benefits it represents, is protected.

The National Recreation and Parks Association's Certified Playground Safety Inspection Course estimates that nearly 40% of all playground injuries occur sure to improper or neglected maintenance. To help you create an inspection and maintenance program for your playground GameTime developed a comprehensive Playground Maintenance Guide to help you maintain and protect your playground.

CUSTOMIZED MAINTENANCE KIT

We provide a customized maintenance kit with every play system. Each kit includes:

- Touch up paint customized to your selected color palette to touch up nicks and scratches cause by wear and tear and/or vandalism
- Graffiti Remover designer to remove unwanted paint from plastic and metal without damaging the finish underneath
- Customized toolkit specifically for the bolts, fittings, and connections on your play system
- Instruction manual with easy-to-read assembly instructions for every component on your system

GameTime's per occurrence insurance policy is one of the strongest in the industry. By definition, a Per Occurrence policy provides coverage for an accident that occurred during the term of the policy, even if the policy is subsequently changed or terminated. This is superior to a Claims Made policy, which does not provide such coverage. The certificate pictured is for informational purposes only, and may not be current. A copy of the current certificate is available on request.

ENVIRONMENTAL RESPONSIBILITY

Environmentally responsible play systems that last for decades, not years.

- 1 100% recyclable plastics are manufactured using efficient processes
- 2 Steel tubing is 100% recyclable and contains 50% post-consumer recycled materials
- 3 100% recycled plastic lumber
- 4 Aluminum uprights are 100% recyclable and contain 65% pre-consumer and 10% post-consumer recycled content
- 5 100% recyclable plastics
- 6 Steel decks and stairs are 100% recyclable and contain 30% pre-consumer and 68% post-consumer recycled content
- 7 100% recycled plastic curbs

OUR PLAYGROUNDS ARE DESIGNED FOR FAMILIES AND TO MINIMIZE THE IMPACT ON THE PLANET WHERE WE PLAY.

It's our responsibility to act as stewards of our planet and its natural resources. It's also our mission to create fun, active, and innovative places for families to gather and play. Our environmental sustainability efforts are intended to help ensure children of today can take their grandchildren to playgrounds in the future. Our approach to stewardship and sustainability encompasses every aspect of our company - from the way we manufacture our products to how we do business. Children learn many valuable life skills on playgrounds. We've learned some important lessons, too. We continuously strive to be environmentally responsible and to make sure future generations benefit from our efforts.

RECYCLING (ANNUAL)

Cardboard: 28.55 tons	Fork lift batteries: 48 lbs.
Paper: 12.25 tons	PVC trimmings: 1,681 lbs.
Scrap plastics: 37,586 lbs.	Steel: 2,791,275 lbs.
Computer equipment: 5,526 lbs.	Aluminum: 27,965 lbs.
Plastic bottles: 23,850	Cartridges: 260
Fluorescent bulbs: (4') 428	Trash can lids: 220 lbs.
Ballasts: 83 lbs.	Polyurea (liquid): 100 gallons

125,000 INDIVIDUAL PARTS 400,000 SQUARE FEET ONE ENVIRONMENTAL COMMITMENT

- We work with our suppliers to source the most environmentally preferable materials for our products.
- We include as much pre-consumer and post-consumer recycled content in our products as possible - without compromising the quality, durability, and performance.
- We're updating light fixtures, upgrading air compressors, and conducting energy audits because every small improvement leads to significant reductions in our overall environmental impact.
- We've implemented a variety of initiatives to reduce water consumption in our facilities, including the use of high-efficiency technology for product painting and washing.
- We recycle the vast majority of waste at our manufacturing facility, including 100% of manufacturing process waste like scrap metal, rotationally molded plastic and paper. We recycle the majority of our administrative waste, too.

WARRANTY

GameTime offers a comprehensive warranty on all of our products.

GAMETIME® WARRANTIES

GameTime provides warranties on all materials and workmanship for one year, excluding vandalism.

In addition, GameTime offers:

- ✓ Lifetime limited warranty on PowerScape®, PrimeTime®, Xscape® & IONiX® and Modern City® uprights.
- ✓ Lifetime limited warranty on Tru-Loc® connections and upright bolt-through connections.
- ✓ Lifetime limited warranty on all hardware.
- ✓ Twenty-Year limited warranty on Timber Décor™ & Timbers recycled plastic lumber.
- ✓ Fifteen-Year limited warranty on metal decks, pipes, rungs, rails, loops, braces, and footbucks.
- ✓ Fifteen-Year limited warranty on rotationally-molded products.
- ✓ Ten-Year limited warranty on GTFit, THRIVE and Challenge Course posts & bars.
- ✓ Ten-Year limited warranty on site furnishings against structural failure.
- ✓ Ten-Year limited warranty on SunBlox® products.
- ✓ Ten-Year limited warranty on fiberglass and DHPL signage.
- ✓ Five-Year limited warranty on TuffForms® structures, including TuffCrete™ and PolyShield™.
- ✓ Five-Year limited warranty on nylon-covered cable net climbers and components.
- ✓ Five-Year limited warranty on GT Symphony Freenotes™ Harmony Park components.
- ✓ Five-Year limited warranty on Super Seats™.
- ✓ Three-Year limited warranty on Everybody Plays polyurea coated foam & rubber strips.
- ✓ Three-Year limited warranty on SaddleMates® rubber and “C”-springs.
- ✓ One-Year limited warranty on Challenge Course timing components.
- ✓ One-Year limited warranty on all other GameTime products.

All warranties specifically exclude damage caused by vandalism; negligence, improper installation or improper use; changes in appearance resulting from weathering; scratches, dents or marring as a result of use. Warranties are valid only if products are installed and maintained in accordance with GameTime instructions and use approved parts.

GTW200101 Page 1

- Lifetime limited warranty on PowerScape®, PrimeTime®, Xscape® & IONiX® and Modern City® uprights.
