

## First Children's Finance

### Supporting Family and Center Child Care Programs

For nearly 30 years, First Children's Finance has worked with communities, family providers and child care centers to increase the supply and sustainability of early care and education in urban and rural areas. We do this through business management training, one-on-one coaching, financing, and community consulting. Dependent upon the project, our work may be available to providers at no cost due to funding from the MN Department of Human Services and other regional funders.
