

TO: Parks and Recreation Committee
FROM: Daniel Eick, Assistant City Administrator
RE: Next Master Planning Workshop Discussion
DATE: November 6, 2023

Summary

On Thursday, October 26, the Parks and Recreation Committee held a workshop reviewing the Parks and Recreation Master Plan. The workshop was very productive, and the Committee finalized their review of all current sections to date.

As such, the Assistant City Administrator recommended the committee discuss next steps by holding an additional workshop. This workshop would create a new section of the Master Plan to be labelled "Future Planning" and would cover larger projects the committee would like to see developed by the City.

The committee tentatively agreed to hold this workshop but desired to discuss the matter further during their next Regular Meeting.

Committee Action

Staff request the Parks and Recreation Committee select a time and date to hold their next Master Planning Workshop to create a Future Planning section in the Parks and Recreation Master Plan.
