RE: Disc Golf Course Calls for Service
DATE: February 7, 2023

I am unfortunately unable to attend the February 8th Park Board Meeting in my role as an ex officio member. After reviewing the February City Council Meeting, I anticipate public safety related questions relating to the Disc Golf Course. I have conducted a review of our records management system and have compiled the following information:

There have been nine (9) calls for police service relating to the Disc Golf Course between 2015 and February 7, 2023.

- a. Two (2) calls for service involved driving conduct on Green Scene Drive
 - i. One (1) call involved the 2022 tournament – an anonymous message left about driving conduct and alcohol consumption that was not received until 90 minutes later.
- b. One (1) call for an ATV on the course.
- c. One (1) incident involved a male sleeping in a vehicle in the parking lot after hours.
- d. One (1) incident involved a call of fire, which were found to be controlled burns.
- e. One (1) incident involved a vehicle parked for an extended time.
- f. Two (2) calls involved items found on the.
- g. One (1) incident involved a lost pedestrian that was given a ride to the course.

Most calls for service were officer initiated, but police response time for the most recent call for service was 4 minutes.

Do not hesitate to contact me with any questions.
