

PARKS AND RECREATION COMMITTEE MEETING

AGENDA ITEM

Prepared By: <i>Joe Zierden Public Works Supervisor, Allie Polsfuss, City Administrator</i>	Meeting Date: <i>May 14, 2026</i>	Item Name: <i>Final Master Plan</i>
---	---	---

BACKGROUND

At the March 12, 2026 Parks Committee meeting, Jillian and Zoe from Widseth presented the Master Parks Plan. Since that meeting, Widseth has taken the committee's final comments and drafted a final plan.

OVERVIEW

A general note on the final site plan; the intention of this plan is to show the public the final, fully-realized park design with all improvements shown. To help tie in the project phasing, the letter labels were broken out by phase and gave any amenity/area not being updated as part of the master plan a generic label.

Below are some of the changes made since the draft concept:

- Move letter kiosk to the newly identified space.
- Relabel: "Existing Shed / Future Park Structure."
- Move basketball court to its existing location. Keep the future location labeled.
- Relabel "Boat Storage" as "Overflow Boat Parking."
- Update phases:
 - Phase 1 includes the pickleball court and removal of the existing ballfield, shed, and court.
 - Phase 2 includes the sledding hill.
- Identify trails/connections in Phase 1.
- Label Phases 1 and 2 on the plan. Show Phases 3 and 4 as "Future Phases" to avoid prioritizing one over the other. If property is acquired, Phase 4 would likely occur before Phase 3.

Attachment A includes the final Master Plan for presentation to the City Council on June 1 at 6:30 p.m.
