RE: Pickle Ball Court Location Options
DATE: 12/04/2024

Background:

A topographic map with movable symbol that represents 4 pickle ball courts will be available to visualize placement options.

Discussion:

Some items to consider in placement:

- Access to parking
- Access to bathrooms
- Site conditions- level vs uneven
- Ability to expand in future
- Noise generated in relation to location

Requested Action:

A general consensus on approximate location would be appreciated to generate estimates on construction costs due to different topographies.
