FROM: Joe Zierden, Public Works Supervisor
RE: Dust Coating
DATE: April 7, 2025

Background:

Quotes from Corbin excavation (\$1.30 per gallon) and Envirotech (\$1.69 per gallon) were obtained to dust coat most gravel roads in 2025. Using an estimated volume of 23,000 gallons at \$1.30 per gallon equals a cost of \$29,900. \$35,000.00 was budgeted for dust coating in 2025. Attached is the spreadsheet showing estimated volumes/cost and the quotes.

Requested Action:

A motion to approve Corbin Excavation to apply dust coating for an estimated cost of \$30,000 would be appreciated.
