**From:** WIDSETH  
**Subject:** WIDSETH Updates - CIP and Shoreview Lane

---

Jerry Bohnsack and City of Breezy Point,

Upon request from City staff, the full draft CIP will be presented at the April 17<sup>th</sup> Streets Committee meeting. Widseth continues to progress through the CIP workplan and is receiving good feedback from staff and the Streets Committee that is pertinent to future City investments in its street and utility infrastructure.

We have contacted Gladen Construction, the contractor for the Shoreview Lane Ice Damage Repair project, regarding timeline for completing the project. Gladen informed us that as soon as bituminous plants are in operation for the year, they will be on site to finish up the project. This is assumed to be early May.

Thank you,  
Nick Peterson, EIT
