RE: Motor Grader Extended Warranty
DATE: 4/7/2025

Background:

The factory extended warranty on the 2021 672G John Deere motor grader expires on the end of April. Attached are three extended warranty options for 84 month (7 years) that range from engine only (**\$2,903.00 or \$414.71 per year**), powertrain (engine/drivetrain) (**\$5,616.00 or \$802.28 per year**) or powertrain/hydraulics (**\$11,884.00 or \$1,697.71 per year**). Any of the options could be paid monthly, yearly or in full upfront. The motor grader is the most expensive piece of equipment in Public Works and repair costs reflect this. The warranty could be paid from the Public Works operating budget under the repairs/maintenance line item.

Requested Action:

A motion to accept one of the extended warranty options or decline extending the warranty would be appreciated.
