Subject: Squads

2015 Explorer – 99,241 miles. Possible coolant leak and no backup camera.

2017 Explorer – 137,000 miles. Check engine light, possible fuel filler. Worse for wear.

Coming end of the year. 2018 Explorer 118,00 miles currently. This is a spare squad currently and will get little use. Best overall condition.

Brian
